Dear Colleague,

It is my pleasure to invite you to join your colleagues and me at the AAOS 2018 Annual Meeting in the fascinating city of New Orleans. Our Academy Meeting is Focused on You, and allows you to customize your educational experience to appeal to your practice area or career stage. Whether you’re looking to broaden your knowledge or dive into a particular topic area, there is an educational path for you. **Don’t miss new opportunities to learn and earn up to 33 CME credits beginning on Tuesday, March 6.**

The Annual Meeting Committee Chair Joseph A. Bosco III, MD and his team have created an exceptional, newly-invigorated program. Along with their respective committees, Central Program Committee Chair Marc Safran, MD, Central Instructional Courses Committee Chair James I. Huddleston III, MD, and Exhibits Committee Chair CAPT (Ret) Matthew T. Provencher, MD MC USNR have produced a powerful selection of educational opportunities including:

- Over 240 Instructional Courses offer experience-based techniques and solutions from world-renowned faculty
- 18 Technical Skills Courses focus on positioning, approach, and step-by-step technical tips
- 32 Case Presentation Courses across all-new topics put you in the action at expert-led round tables
- 25 Symposia present the latest research by surgeons who are shaping the future of our specialty
- Over 900 Paper Presentations and over 1,000 Posters illuminate the latest scientific and clinical studies
- The “Game Changers” Paper Session reveals research that may impact your practice and decision making
- 88 Scientific Exhibits explore extended studies or complex procedures
- Over 650 Technical Exhibits display the most innovative products and services in orthopaedics
- Specialty Day, offered by 14 Specialty Societies, features the latest updates in each field

After a successful launch at the 2017 Annual Meeting we’ve expanded Education Tracks to 10 classifications, each offering a general and specialist path and including two to six ICLs. See page 7 to discover these new pipelines to your best educational opportunities.

Stay competitive with hot topics at our highly rated, innovative formats: Flash Five® What’s Coming Down the Pike, The Way I See It…® and the unrehearsed Showdowns® debates. Details of these sessions can be found on page 6 of this program.

“Your Academy 2018” on Thursday, March 8, at 10:30 AM offers the opportunity to hear from your leadership including an Incoming Presidential Address from David A. Halsey, MD. This year, we recognize Italy as the 2018 Guest Nation and will announce recipients of the Diversity, Humanitarian, Kappa Delta, and Tipton Leadership awards. The program concludes with remarks from the presidential guest speaker, David Gergen, Senior Political Analyst, CNN.

The Annual Meeting is our best opportunity to share experiences and advance our profession. To support that initiative, a fee will be collected from members at the time of registration, $100 in advance and $250 onsite. The value of the AAOS Annual Meeting supersedes any dollar amount. When you commit to the meeting, you are committing to the latest orthopaedic education and discoveries.

Join us to reconnect with your colleagues and contribute your own perspective to this important meeting of minds and orthopaedic knowledge.

On behalf of the Academy, I look forward to seeing you in New Orleans! With so many facets to its character, New Orleans is a city that can offer something for every type of visitor.

William J. Maloney, MD
President
The 2018 Annual Meeting will be held at: Morial Convention Center
900 Convention Center Blvd.
New Orleans, LA 70130

Annual Business Meetings
All Fellows are urged to attend the Annual Business Meetings held in La Nouvelle Ballroom of the Morial Convention Center. The meetings are held on Thursday, March 8, 2018, starting at 9:30 AM. There is one business meeting for the American Academy of Orthopaedic Surgeons (“Academy”), the 501(c)(3) organization, immediately followed by the business meeting of the American Association of Orthopaedic Surgeons (“Association”), the 501(c)(6) organization.

2018 Nominating Committee
In May 2017, the Fellowship elected six members of the 2018 Nominating Committee by ballot. The Board of Directors appointed the Chair of the Nominating Committee in March, 2017.

The members of the 2018 Nominating Committee are:
- Frederick M. Azar, MD, Chair, (TN)
- James H. Beaty, MD (TN)
- Andrew R. Burgess, MD (TX)
- Serena S. Hu, MD (CA)
- Alexandra (Alexe) Page, MD (CA)
- Alexander R. Vaccaro, MD, PhD, MBA (PA)
- Joseph D. Zuckerman, MD (NY)

The 2018 Nominating Committee provides its slate of nominees for each vacancy to be filled to the Fellowship in November 2017. If unopposed, this slate is voted on during the Association Business Meeting on Thursday, March 8, 2018.

2019 Nominating Committee
Nominations for the 2019 Nominating Committee are accepted from the floor during the Association Business Meeting on Thursday, March 8, 2018. All Fellows receive an electronic ballot after the 2018 Annual Meeting, with an opportunity to cast their votes for nominees to fill the elected positions on the 2019 Nominating Committee.

Bylaws Committee
Proposed amendments to the Academy and the Association Bylaws are considered at the 2018 Annual Meeting if submitted by September 1, 2017. The AAOS Bylaws Committee conducts an Open Hearing to receive comments on the proposed bylaw amendments on Wednesday, March 7, 2018, beginning shortly after the conclusion of the Resolutions Committee Open Hearing. It is anticipated that the Bylaws Committee Open Hearing will begin around 1:30 PM.

At the business meetings on Thursday, March 8, 2018, the Bylaws Committee presents its recommendations regarding each set of the proposed amendments to the Bylaws. Shortly after the Annual Meeting, these recommendations are voted on by the Fellowship.

Resolutions Committee
Any 20 or more Fellows, the majority of the members of the Board of Directors of a State Orthopaedic Society, a majority of the members of the Board of Directors of an orthopaedic specialty society that is a member of the Board of Specialty Societies, the AAOS Board of Directors, a supermajority of the Board of Councilors, or a supermajority of the member societies of the Board of Specialty Societies may offer a resolution for consideration by the Fellowship at the 2018 Annual Meeting. To be binding on the Academy or the Association, a resolution must be submitted and considered by the Board of Councilors and Board of Specialty Societies before being voted upon by the Fellowship after the Annual Meeting at which it was discussed.

To be considered by the Board of Councilors and the Board of Specialty Societies at the Fall Meeting, AAOS must receive a resolution on or before September 1, 2017. Emergency resolutions are accepted until February 6, 2018, but only if all other conditions are met. Copies of each duly submitted resolution are available and sent by email to the Fellowship in January or February 2018.

The AAOS Resolutions Committee holds an Open Hearing on the resolutions on Wednesday, March 7, 2018, beginning at 1:00 PM. During the Open Hearing, proponents and opponents discuss those resolutions under consideration.

At the business meetings on Thursday, March 8, 2018, the Resolutions Committee presents its recommendations regarding each resolution under consideration. Shortly after the Annual Meeting, these recommendations are voted on by the Fellowship.

Meeting Space Information
All meeting and event requests must be submitted to AAOS on a Meeting Space Request form located on the AAOS website at www.aaos.org/meetingspace. If you made your own arrangements and would like your event listed in the AAOS Final Program/My Academy App, submit the information using the same form.

Events taking place during official AAOS educational sessions, Tuesday through Friday, 8:00 AM - 6:00 PM, are reviewed to ensure they do not conflict with AAOS educational programming, the Academy Business Meetings, or Specialty Day.

Function | Dates & Times Events cannot be scheduled
---|---
Annual Business Meetings | Thursday, March 8, 9:30 – 10:30 AM
Specialty Day | Saturday, March 10, All Day

All submitted meetings and events (whether booked on own or though AAOS) are listed in the AAOS Final Program and My Academy App. If you prefer your event not be listed, indicate “No” on the Meeting Space Request form.

The deadline to request meeting space or submit information about a meeting or event is November 17, 2017.

Make the most of your Annual Meeting experience with dynamic learning formats

The AAOS Annual Meeting provides stimulating learning formats across a wide range of subjects. Choose the style that best fits your learning preferences and objectives.

**Ticketed Opportunities**

**Instructional Courses** Master in-depth experience-based orthopaedic techniques and solutions from world-renowned faculty.

**Case Presentation Courses** Engage in collaborative table discussions, review case data, and hear the final solution with references to support the selected treatment.

**Technical Skills Courses** Focus on positioning, approach, and step-by-step technical tips via edited videos; followed by discussion on the pearls.

**Included with your registration**

**Symposia** Get inspired as a panel of surgeons at the forefront of orthopaedics shares leading-edge research across 25 different topics.

**Ask an Expert** Present your complex case challenges to expert faculty to receive diagnosis and recommendations for future cases. Presentations take place Wednesday through Friday in the Exhibit Hall.

**Paper Presentations** Explore new and exciting research and advances in orthopaedics. More than 900 papers will be on display to view at your convenience.

**Orthopaedic Video Theater** View hundreds of high-quality and peer-reviewed surgical technique videos from accomplished surgeons and innovators.

**Technology Theater** Attend a presentation of the latest technology and applications beneficial to surgeons and staff teams. Presentations take place Wednesday through Friday in the Exhibit Hall.

**Posters** Observe the visual presentation of the latest medical, clinical, or scientific research. More than 1,000 posters will be on display to view at your convenience.

**Poster Tours** Attend guided presentations of the best posters. Recognized experts create a memorable experience by highlighting pearls and answering your questions.

**Scientific Exhibits** Witness in-depth and interactive graphic illustrations of a study or complex procedure. 88 Scientific Exhibits offer audiovisual, presenter interaction, and other enhancements to enrich your learning experience.

**ePosters & eScientific Exhibits** Access interactive video presentations of research during the meeting at www.aaos.org/annual.

**Career Development Courses** Advance or refine your career with themed daily curriculum including: Leadership, Teaching and Communication, Research and Education, Maintenance of Certification, and Marketing.
Create a unique experience customized to your specialization and educational needs

**Innovative Formats**

**Flash 5° What's Coming Down the Pike**
Hear critical takeaways on multiple hot topics during focused 5-minute presentations. 
*Presented on Tuesday, 1:30 – 2:30 PM (see page 21) and Thursday, 8:00 – 9:00 AM (see page 23).*

**Showdowns®**
Watch two surgeons debate topics and techniques; then YOU determine who wins. 
The Knee Showdown will be presented on Wednesday, 8:00 – 9:00 AM (see page 12), and the Shoulder Showdown will be presented on Thursday, 1:30 – 2:30 PM (see page 39).

**The Way I See It...®**
Hear the faculty’s candid opinions on top-of-mind issues. 
*Presented on Tuesday, 4:00 – 5:00 PM (see page 34); Wednesday, 11:00 AM – 12:00 PM (see page 22); Thursday, 4:00 – 5:00 PM (see page 47) and Friday, 1:30 – 3:30 PM (see page 24) in conjunction with Game Changers Paper session.*

**Paperless Handouts & Evaluations**
Session evaluations and handouts will be available exclusively via the *My Academy* App. Session handouts will be accessible one week prior to the meeting.

Register and plan your education at www.aaos.org/annual

**Educational Tracks**

Educational Tracks at the AAOS 2018 Annual Meeting identify the best sessions for your level of expertise.

Each classification is curated by the AAOS Education Track Committee, includes up to five ICLs and is offered in a specialist or general path.

**Topics include:**

- Adult Reconstruction Hip
- Adult Reconstruction Knee
- Foot and Ankle NEW!
- Hand and Wrist NEW!
- Musculoskeletal Oncology NEW!
- Pediatrics
- Shoulder and Elbow NEW!
- Spine
- Sports Medicine NEW!
- Trauma

**Track packages are available for advance purchase only. Visit www.aaos.org/annual to register by January 24, 2018**

No course substitutions or exchanges are allowed and a written request for refund must be received by January 26, 2018. No refunds or exchanges are issued after this date.
Accreditation
The American Academy of Orthopaedic Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education (CME) for physicians.

CME Credit
U.S. Physicians: The AAOS designates this live activity for a maximum of 33 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

International Physicians: The AMA has determined that physicians not licensed in the United States but who participate in this CME activity are eligible for AMA PRA Category 1 Credits™.

Allied Health Professionals: The AAOS is not accredited to offer credit for nurses and other Allied Health Professionals. To determine if activities offering AMA PRA Category 1 Credits™ are acceptable for your licensing or certification needs please contact the relevant organizations directly.

IMPORTANT – Please check-in as soon as you arrive.
The AAOS CME transcript system will not allow you to claim CME credit for any educational activities you participated in before you officially check-in to the meeting. For example, you arrive at the meeting on Tuesday but do not check-in until Wednesday, you will not be able to claim CME credits for your Tuesday attendance. Also, only after checking-in will you be able to print your CME Certificate of Attendance. The grid below outlines the number of credit hours available per day:

</tbody>
</table>

CME Certificate of Attendance Kiosk
While you are at the Annual Meeting, print your CME Certificate of Attendance for the AAOS and participating Specialty Societies. The kiosks are located in Academy Hall, B, Lobby B, Lobby D, and Lobby H.

AAOS CME Transcript System
The transcript system is an honor system. You will be able to log your CME credits into your transcripts approximately 4 weeks after the meeting. Physicians should claim only the number of credits for the learning activities at the Annual Meeting in which they actively participated. For example: A two-hour Symposium is 2 CME credits.

Disclaimer
The material presented at the Annual Meeting has been made available by the American Academy of Orthopaedic Surgeons for educational purposes only. This material is not intended to represent the only, nor necessarily best, method or procedure appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty which may be helpful to others who face similar situations. The AAOS disclaims any and all liability for injury or other damages resulting to any individual attending a session and for all claims which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person.

FDA Statement
Some drugs or medical devices demonstrated at the Annual Meeting have been cleared by the FDA for specific purposes only or have not been cleared by the FDA. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or medical device he or she wishes to use in clinical practice. Academy policy provides that “off label” uses of a drug or medical device may be described in the Academy’s CME activities so long as the “off label” use of the drug or medical device is also specifically disclosed (i.e. it must be disclosed that the FDA has not cleared the drug or device for the described purpose). Any drug or medical device is being used “off label” if the described use is not set forth on the product’s current label.

Reproduction
The Academy reserves any and all of its rights to materials presented at the Annual Meeting, including Posters and Scientific Exhibits. Reproductions of any kind, by any person or entity, without prior written permission from the Academy, are strictly prohibited. Prohibited reproductions include, but are not limited to, audiotapes, videotape, and/or still photography. Persons violating this policy may have their badge confiscated and be escorted from the meeting. No unapproved surveys, handouts, or literature may be distributed at the meeting.

Private Meeting
The AAOS 2018 Annual Meeting is a private meeting. The AAOS reserves the right to control space and ask people to leave the meeting who are not qualified to attend or who cause disruptions, at AAOS’ sole discretion.

ICLs that are part of the registration track package
Case Presentations sessions are a separate purchase and subject to availability.
Symposia included with registration.

Track packages are only available for advanced purchase.
No refunds or exchanges after January 26, 2018.

Visit www.aaos.org/annual to register by January 24, 2018.
**Tuesday, March 6**

**8:00 AM - 10:00 AM**

**A 101 Periprosthetic Fractures Around the Hip and Knee: Contemporary Techniques of Internal Fixation and Revision**

- **Moderator**: Michael J. Stuart, MD
- **Speakers**: Michael E. Berend, MD, Brian J. Cole, MD, MBA, Alan Getgood, MD, Bruce A. Levy, MD, Jess H. Lonner, MD, Patrick A. Smith, MD

This symposium focuses on the myriad of treatment options for the younger, more active patient with knee arthritis. The concise lectures, case presentations, panel discussion, and audience responses address clinical controversies, burgeoning new therapies, and the latest results of modern arthroplasty designs. Clinicians hear updates on the rapidly changing therapy options and highlights of the best available evidence.

**Tuesday, March 6**

**10:30 AM - 12:30 PM**

**121 Innovative Techniques in Revision Total Hip Arthroplasty**

- **Moderator**: Scott M. Sporer, MD

This course reviews new techniques for management of common problems encountered in revision hip surgery. Acetabular component removal and revision with enhanced surface jumbo cups, new recurrent dislocation options, easier ways to perform extended trochanteric osteotomy (ETO) and fabricate antibiotic cement spacer, and management of the painful metal-metal and ceramic-ceramic hip are covered in video vignettes and case presentations.

**Tuesday, March 6**

**1:30 PM - 3:30 PM**

**122 Perioperative Management in Total Knee Arthroplasty**

- **Moderator**: Brett R. Levine, MD

This course addresses perioperative care of knee arthroplasty patients focused on evidence- and value-driven recommendations for medical management, blood conservation, pain management, infection prevention, and wound management.

**Tuesday, March 6**

**When and How to Use Arthroplasty in Acute and Failed Hip Fracture Treatment: The Latest Surgical Techniques**

- **Moderator**: Richard F. Kyle, MD

This ICL reviews the incidence of hip fractures worldwide, morbidity, and cost. The importance of treatment selection for correct treatment (internal fixation versus arthroplasty) techniques of arthroplasty (hemi versus total hip arthroplasty) in acute fractures and failed open reduction and internal fixation of hip fractures are covered.

**Tuesday, March 6**

**Let's Do an Efficient Direct Anterior Hip Replacement (Without a Special Table)**

- **Moderator**: Kristoff Corten, MD, PhD

This is a video-based course focusing on local anatomy related to the direct anterior approach as well as surgical techniques for primary and revision total hip arthroplasty using a direct anterior approach without a special table. Tips for novices on how to shorten the learning curve are provided.
EDUCATIONAL SESSIONS

Managing Problems and Complications During and After Primary Total Knee Arthroplasty
Michael P. Bolognesi, MD, Steven J. MacDonald, MD, William J. Maloney, MD
Moderator: Jay R. Lieberman, MD
Course presenters review diagnosis and management of intraoperative problems (instability, patella maltracking, and stiffness) and complications (wound drainage, infection, instability, and pain) commonly associated with total knee arthroplasty.

The Personalized Approach to the Isolated Arthritic Knee: From Biologics to Metal – Drop that Total Knee Arthroplasty Tray
Kyle Anderson, MD, John P. Fulkerson, MD, Robert F. LaPrade, MD, Adolph V. Lombardi, Jr, MD, William M. Mihalko, MD, Mark D. Miller, MD, Tom Minas, MD, Anthony Miniaci, MD, Robert A. Teitge, MD
Moderator: Khaleed J. Saleh, MD, MSc
This course provides management paradigms of the isolated compartment arthritic knee and delineates application of technical strategies and approaches to prevent and treat this condition.

Practical Techniques for Revision Total Hip Arthroplasty
Erik Kubiak, MD, Brett R. Levine, MD, James D. Slover, MD
Moderator: Frank Liporace, MD
This video-rich course focuses on specific tips and tricks from the experts on common, practical techniques useful during revision total hip arthroplasty. Videos supplement short, key point slide presentations. Case-based discussion with audience response system highlights key points of exposure, implant removal, and reconstruction strategies.

Complications after Total Hip Arthroplasty: Current Strategies for Prevention and Treatment
John J. Callaghan, MD, Gregory K. Deirmengian, MD, Christopher Estes, DO, Fares S. Haddad, FRCS, David J. Jacofsky, MD, Steven J. MacDonald, MD, R. Michael Meneghini, MD, Christopher L. Peters, MD, Gregory G. Polkowski, MD, Scott M. Sporer, MD
Moderator: Craig J. Della Valle, MD
Learn to avoid and optimize the management of complications associated with total hip arthroplasty including dislocation and leg length discrepancy, infection, symptomatic deep vein thrombosis, and periprosthetic fractures.

Showdowns® Technology in Knee Arthroplasty
Seth A. Jerabeck, MD, David J. Mayman, MD, Patrick Meere, MD, Jonathan M. Vigdorchik, MD
Moderator: James I. Huddleston III, MD
Debates on the latest techniques in state-of-the-art technology in total knee arthroplasty including robotics, smart tools, sensors, and custom implants. YOU decide who wins!

Preventing Hospital Readmissions and Limiting the Complications Associated with Total Hip Arthroplasty
Eric Bolin, MD, Harry A. Demos, MD, Jacob M. Drew, MD
Moderator: Vincent D. Pellegrini, MD
With increasing attention on hospital readmission after total hip arthroplasty, there is a need to better understand and prevent complications responsible for readmission to the hospital.

Difficult Revision Total Hip Arthroplasties Through an Anterior Approach: Extensile Expansions of Anterior Approach for Revisions, Complex Deformities, Conversions, and Periprosthetic Fractures
Theodore T. Manson, MD, J. Bohannon Mason, MD, John L. Masonis, MD
Moderator: Joseph T. Moskal, MD
Designed for the surgeon already using the direct anterior approach for routine primary and simple revision hip arthroplasties, this ICL teaches how to expand the approach both proximally and distally for hip reconstructions with complex deformities, as well as perform femoral and acetabular revisions through a direct anterior approach. Cementless and cemented stem removal, extended trochanteric osteotomy, treatment of periprosthetic fractures, intra-pelvic extension of the approach as well as managing pelvic discontinuity also are covered. At the conclusion of the course, participants have the cognitive skills for extension of the surgical approach and the conceptual framework for incorporation of revision direct anterior hip replacement into their practice.

Outpatient Joint Replacement: Practical Guidelines for Your Program Based on Evidence, Success, and Failures
Charles A. DeCook, MD, Craig J. Della Valle, MD, R. Michael Meneghini, MD
Moderator: Alexander F. Sah, MD
Lessons can be learned from case examples of real-life challenges and failures in the ambulatory surgical center setting to help shape future success of outpatient joint replacement.
EDUCATIONAL SESSIONS

Wednesday, March 7  11:00 AM - 12:30 PM

221  Optimizing Outcomes and Treating Complications After Total Hip Arthroplasty

John J. Callaghan, MD, J. Bohannon Mason, MD, Robert T. Trousdale, MD

Moderator: Jay R. Lieberman, MD

This course identifies perioperative management strategies that can improve outcomes after total hip arthroplasty and reviews prevention and treatment of common perioperative complications.

222  Complex Revision Total Hip Arthroplasty: An Advanced Course

Donald S. Garbuz, MD, David G. Lewallen, MD, Bryan D. Springer, MD

Moderator: Wayne G. Paprosky, MD

Utilizing audience response and video, the faculty demonstrates revision total hip arthroplasty techniques stressing planning and exposure, reconstruction of bone loss, and treating dislocations.

223  Management of Periprosthetic Joint Infection: What Has Happened Over the Last Few Years?

Robert L. Barrack, MD, Thorsten Gebhrke, MD, Carlo Romano, MD

Moderator: Javad Parvizi, MD, FRCS

This ICL provides attendees with the most recent developments related to prevention, diagnosis, and treatment of periprosthetic joint infection (PJI).

Wednesday, March 7  1:30 PM - 3:30 PM

241  The Treatment and Management of Acetabular Bone Loss in Revision Total Hip Arthroplasty

Matthew Austin, MD, William G. Hamilton, MD, Wayne G. Paprosky, MD

Moderator: Neil P. Sheth, MD

Upon completion of this course, participants have an algorithmic approach on how to evaluate acetabular bone loss and determine how to surgically treat this entity. Clinical cases help reinforce concepts presented in this instructional course lecture.

242  Four Challenges in Revision Total Knee Arthroplasty: Exposure, Safe and Effective Component Removal, Bone Deficit Management, and Fixation

Thomas K. Fehring, MD, David G. Lewallen, MD, Steven J. MacDonald, MD

Moderator: Adolph V. Lombardi, Jr, MD

Four challenges in surgical techniques for revision total knee arthroplasty are addressed: surgical exposure, careful removal of components, bone deficit management, and fixation options.

Wednesday, March 7  4:00 PM - 6:00 PM

261  The Modern Total Knee Arthroplasty: What to Make of All of these Options?

John J. Callaghan, MD, Steven J. MacDonald, MD, R. Michael Meneghini, MD

Moderator: Brett R. Levine, MD

This ICL reviews the design and biomaterial aspects of modern total knee arthroplasty (TKA) implants including outcomes, indications, and complications associated with these devices.

287  Revision Total Knee Arthroplasty: How to Avoid Getting in Over Your Head – Cased-Based Presentations

David Backstein, MD, Michael E. Berend, MD, Michael P. Bolognesi, MD, Henry D. Clarke, MD, Fred D. Cuscheri, MD, Douglas A. Dennis, MD, William L. Griffin, MD, Guo-Chin Lee, MD, Adolph V. Lombardi, Jr, MD, Mark W. Pagnano, MD

Moderator: Giles R. Scuderi, MD

This course instructs attendees on reasons for failure, how to develop a systematic surgical plan for revision total knee arthroplasty, and establishing a knowledge of complex situations.

Register and plan your education at www.aaos.org/annual
EDUCATIONAL SESSIONS

Thursday, March 8 8:00 AM - 10:00 AM

301 Indications and Technique for Single-Stage Revision Total Hip Arthroplasty for Prosthetic Joint Infection
Craig J. Della Valle, MD, Thorsten Gebhrke, MD, Fares S. Haddad, FRCS

Moderator: William A. Jiranek, MD
The evidence supporting single-stage revision for treatment of prosthetic joint infection (PJI) is increasing, and it is apparent the cost and morbidity is less.

302 Partial Knee Arthroplasty: The State of the Art
Keith R. Berend, MD, Richard A. Berger, MD, Jess H. Lonner, MD

Moderator: Tad L. Gerlinger, MD
The state of the art in partial knee arthroplasty, including patient selection, surgical techniques, and implant selection are discussed, highlighted by surgical technique videos.

Thursday, March 8 11:00 AM - 12:30 PM

321 Understanding Hip Dysplasia: Evolving Disease Concepts and Treatment Innovations
Paul E. Beaulé, MD, Asheesh Bedi, MD, Christopher L. Peters, MD

Moderator: John C. Clobisby, MD
Improved understanding of hip pathomorphology and instability have led to major improvements in diagnosis and treatment. This course highlights recent advancements and innovations treating developmental dysplasia of the hip (DDH).

322 Recurrent Dislocation after Total Hip Arthroplasty: Controversies and Solutions
Stephen A. Jones, MD, Samuel S. Wellman, MD

Moderator: Paul F. Lachiewicz, MD
This course provides an in-depth discussion of the biomechanics, indications, techniques, and results of these procedures for recurrent dislocation in a didactic and case-based approach.

323 The Complex Primary Total Knee Arthroplasty Made Simple
Daniel J. Berry, MD, Jay R. Lieberman, MD, Bryan D. Springer, MD

Moderator: Steven J. MacDonald, MD
This ICL is designed to provide the adult reconstructive knee surgeon with strategies to manage the complex cases that present requiring total knee arthroplasty. The challenges addressed are common, and are problems surgeons need to address routinely and “on the spot”; therefore knowing and understanding the array of effective strategies in advance of the problem is essential. This ICL helps provide the surgeon to address these problems by providing recommendations from leading surgeons on how to deal with these common, but complex, clinical scenarios and consensus opinion on the best way to solve problems by the whole panel. The format includes brief, focused didactic lectures; panel discussions; and case-based panel consensus.

Thursday, March 8 1:30 PM - 3:30 PM

S Choices, Compromises, and Controversies in Total Knee Arthroplasty
C. Lowry Barnes, MD, Robert L. Barrack, MD, Michael E. Berend, MD, Keith R. Berend, MD, John J. Callaghan, MD, Craig J. Della Valle, MD, Richard Iorio, MD, Jay R. Lieberman, MD, Mark W. Pagnano, MD, Christopher L. Peters, MD, Thomas P. Sculco, MD, Alfred J. Tria, Jr, MD

Moderator: Adolph V. Lombardi, Jr, MD
Despite nearly 40 years of condylar total knee arthroplasty (TKA), many choices, compromises, and controversies remain. This symposium reviews current evidence through didactic presentations, debates, and cases.

341 Total Hip Arthroplasty – How Do I Get Out of This Problem?

Moderator: Kevin L. Garvin, MD
This course is designed to provide the surgeon with strategies to manage the most common challenges faced intraoperatively and early postoperatively after total hip arthroplasty (THA). We provide recommendations from leading surgeons on how to deal with these common challenges and consensus opinion by the panel on the best way to solve problems.

Thursday, March 8 4:00 PM - 6:00 PM

T Performing a Revision Total Hip Arthroplasty: What You Need to Know
Daniel J. Berry, MD, Craig J. Della Valle, MD, Kevin L. Garvin, MD, William J. Hizack, MD, Joshua J. Jacobs, MD, David G. Lewallen, MD, Steven J. MacDonald, MD, Douglas E. Padgett, MD, Christopher L. Peters, MD, Scott M. Sporer, MD, Geoffrey H. Westrich, MD

Moderator: Adolph V. Lombardi, Jr, MD
While total hip arthroplasty is tremendously successful, artificial joints have a finite lifespan. A structured approach can facilitate improved outcomes when revision becomes necessary.

The Post “OOP” Knee
Keith R. Berend, MD, Henry D. Clarke, MD, Craig J. Della Valle, MD, Steven B. Haas, MD, Michael A. Kelly, MD, Chin Lee, MD, David J. Mayman, MD, Guo-Giles R. Scuderi, MD, Alfred J. Tria, Jr, MD, Geoffrey H. Westrich, MD

Moderator: Fred D. Cashner, MD
This case-based ICL covers common postoperative complications and focuses on prevention as well as treatment.
EDUCATIONAL SESSIONS

Friday, March 9  
8:00 AM - 10:00 AM

401 Primary Total Hip Arthroplasty: Everything You Need to Know
David Beverland, MD, David F. Dalury, MD, William L. Griffin, MD
Moderator: J. Bohannon Mason, MD
Course presenters review preoperative and postoperative strategies to improve outcomes, component preparation and implantation techniques (video demonstrations), and bearing surface selection.

402 The Basic Knee Revision – Simple Knee Revision for the Generalist
David Backstein, MD, James A. Browne, MD, Douglas Naudie, MD
Moderator: Ran Schwarzkopf, MD
This course explores the challenges of revision total knee arthroplasty (TKA) for the community surgeon, modes of TKA failure, the stiff knee, isolated polyethylene liner exchange, and executing the simple TKA revision. Current modern preoperative planning and intraoperative techniques are discussed. At the end of the course, participants feel comfortable applying treatment algorithms for simple revision TKA cases.

481 Periprosthetic Fractures of the Hip and Knee: A Case-Based ICL
Cory A. Collinge, MD, Paul D. Duwelius, MD, Donald S. Garbuz, MD, Kevin L. Garvin, MD, Curtis W. Hartman, MD, Richard F. Kyle, MD, David G. Lewallen, MD, Frank A. Liporace, MD, Michael D. Ries, MD, Scott M. Sporer, MD
Moderator: George J. Haidukewych, MD
This case-based periprosthetic hip and knee fracture course gives the participant an opportunity to interact in small group format with national faculty in learning current treatment techniques.

Friday, March 9  
11:00 AM - 12:30 PM

421 Outpatient Arthroplasty: Same Day, Home Safe
William G. Hamilton, MD, Gregg R. Klein, MD, Adolph V. Lombardi Jr, MD
Moderator: Michael E. Berend, MD
Understanding and addressing safely the reasons that surgeons and patients believe they ‘need’ a hospital admission is the cornerstone to outpatient arthroplasty. Course faculty review the surgical techniques and perioperative factors.

422 Diagnosis and Treatment of Infected Total Knee Arthroplasty: State of Art in 2018
Craig J. Della Valle, MD, Fares S. Haddad, FRCS, John Segreti, MD
Moderator: Javad Parvizi, MD, FRCS
This course provides the most recent developments for diagnosis and treatment of periprosthetic joint infection (PJI). The audience walks away knowing the state of the art related to PJI.

Friday, March 9  
1:30 PM - 3:30 PM

441 New Paradigms in the Etiology, Pathogenesis, and Treatment of Osteonecrosis
Philippe Hermigou, PhD, Lynne C. Jones, PhD, Michael A. Mont, MD
Moderator: Stuart B. Goodman, MD
This ICL reviews novel methods for identification of high-risk patients, preventative measures, earlier diagnosis, and cutting-edge treatments to mitigate the progression of osteonecrosis.

485 Revision Total Knee Arthroplasty Essentials: A Case-Based Approach
James A. Browne, MD, Kevin L. Garvin, MD, Arlen D. Hanssen, MD, Curtis W. Hartman, MD, Raymond H. Kim, MD, Steven J. MacDonald, MD, R. Michael Meneghini, MD, Christopher L. Peters, MD, Bryan D. Springer, MD, Michael J. Taunton, MD
Moderator: Tad M. Mabry, MD
This course addresses the essentials of revision total knee arthroplasty (TKA) with a focus on surgical indications and practical solutions to the most common revision challenges: instability, stiffness, bone loss, and infection.

Friday, March 9  
4:00 PM - 6:00 PM

461 How to Perform a Primary Total Knee Arthroplasty: Video Vignettes
Henry D. Clarke, MD, William J. Long, MD, Ryan Nunley, MD
Moderator: Gwo-Chin Lee, MD
Techniques required to perform a successful total knee arthroplasty are detailed using video vignettes, including preoperative planning, prosthesis selection, surgical exposures, ligamentous balancing, fixation, and patellar resurfacing.

487 Management of Infected Total Joint Arthroplasty in 2018 – Where Do We Stand Now?
Brian M. Curtin, MD, Craig J. Della Valle, MD, Mark G. Freeman, MD, Kevin L. Garvin, MD, Thorsten Gehrke, MD, Gregory Golladay, MD, Arlen D. Hanssen, MD, Javad Parvizi, MD, FRCS, Bryan D. Springer, MD, Louis S. Stryker, MD
Moderator: Thomas K. Fehring, MD
As the number of total joints performed increases exponentially, so too will the infection burden. This course helps all arthroplasty surgeons become well versed in the diagnosis and management of patients with a periprosthetic infection through a case-based format.

Register and plan your education at www.aaos.org/annual
### Basic Research

**Tuesday, March 6**  
**10:30 AM - 12:30 PM**

**123** Orthopaedic Basic Science for the Practicing Physician  
*Geoffrey D. Abrams, MD, Thomas A. Einhorn, MD*  
*Moderator: Philipp Leucht, MD*

The purpose of this course is to educate the practicing orthopaedic surgeon in the most recent developments in orthopaedic basic science with a special focus on fracture healing, osteoarthritis, and orthobiologics.

**Wednesday, March 7**  
**8:00 AM - 10:00 AM**

**204** Biologics in Rotator Cuff Repair: Magic or Mischief?  
*Jeffrey S. Abrams, MD, James P. Bradley, MD, Jason L. Dragoo, MD*  
*Moderator: John M. Tokish, MD*

This course offers a thorough presentation of the use of biologics in the setting of a rotator cuff tear and its impact on patient outcomes.

**Thursday, March 8**  
**11:00 AM - 12:30 PM**

**324** Infection in Arthroplasty: The Basic Science of Bacterial Biofilms in its Pathogenesis, Diagnosis, Treatment, and Prevention  
*Fares S. Haddad, FRCS, Edward M. Schwarz, PhD, Mark S. Smeltzer, PhD*  
*Moderator: Javad Parvizi, MD*

Course faculty discuss the surest state of affairs with regard to orthopaedic infections and the challenge that biofilm formation presents to the orthopaedic community. No handouts are available.

**Friday, March 9**  
**8:00 AM - 10:00 AM**

**403** The Synovial Joint: Structure, Function, Injury and Repair, Osteoarthritis  
*Alan J. Grodzinsky, PhD*  
*Moderator: Joseph A. Buckwalter, MD*

This course offers a concise review of the current understanding of the biology and biomechanics of articular cartilage and provides a basis for current understanding of osteoarthritis and cartilage repair. A basis for understanding current clinical approaches to providing biologic resurfacing of articular cartilage and restoration of synovial joint function also is covered.

### Foot and Ankle

**Tuesday, March 6**  
**8:00 AM - 10:00 AM**

**103** Surgical Treatment of Ankle Instability: No More Big Incisions  
*Stephane Guillo, MD, Kentaro Matsui, MD, Masato Takao, MD*  
*Moderator: James W. Stone, MD*

Recently, there have been advances in the field of ankle stabilization which utilize arthroscopic or percutaneous procedures that are both minimally invasive and allow complete anatomic reconstruction or repair of the anterior talofibular ligament and calcaneofibular ligament. In this course, new arthroscopic and percutaneous techniques are described for surgical stabilization of the ankle that avoid large open incisions.

**Tuesday, March 6**  
**10:30 AM - 12:30 PM**

**124** Osteotomy and Arthrodesis of the Forefoot and Hindfoot  
*Samuel B. Adams, MD, Scott Ellis, MD, Andrew R. Hsu, MD*  
*Moderator: Kenneth Hunt, MD*

This course reviews common surgical techniques for correction of hallux valgus and hindfoot arthrodesis.

**Tuesday, March 6**  
**1:30 PM - 3:30 PM**

**144** Challenges and Controversies in Foot and Ankle Trauma  
*Moderator: Thomas G. Harris, MD*

This course provides a practical, case-based lecture on the current state of the art in common foot and ankle trauma. It covers how to avoid common pitfalls as well as emphasizes how to achieve good surgical and nonsurgical outcomes. Each talk highlights easy-to-miss injuries as well.

**Tuesday, March 6**  
**4:00 PM - 6:00 PM**

**162** Chronic Achilles Ruptures - From Bracing to Complex Reconstruction  
*Samuel B. Adams, Jr, MD, Scott Ellis, MD, Steven K. Neufeld, MD*  
*Moderator: Daniel C. Farber, MD*

Chronic Achilles ruptures are a reconstructive challenge. Faculty reviews clinical scenarios and provides multiple treatment options and the pros/cons of reconstruction techniques.

EDUCATIONAL SESSIONS

Audience Response Session • Case Presentation course • Technical Skills course

Friday, March 9 8:00 AM - 10:00 AM

Trauma to the Foot and Ankle: Keeping the Surgeon Stable
Robert B. Anderson, MD, J. Chris Coetzee, MD, William C. Mcgarvey, MD, Brian M. Weatherford, MD

Moderator: Steven L. Haddad, MD

This new symposium is a comprehensive look at the most frequently discussed and most debated aspects of foot and ankle trauma. We delve into specific traumatic injuries, and learn how to diagnose them best, allowing the surgeon to both formulate and execute a comprehensive operative plan. Basic and advanced techniques are illustrated through didactic example and video. Less than optimal outcomes are discussed, with management strategies to increase patient satisfaction. By increasing current knowledge, we decrease current surgeon stress.

Friday, March 9 11:00 AM - 12:30 PM

Management of Most Common Foot and Ankle Pathologies
Jason S. Ahuero, MD, Judith F. Baumhauer, MD, Stephen F. Conti, MD, Christopher W. DiGiovanni, MD, John E. Femino, MD, Naren G. Gurbani, MD, Jeffrey E. Johnson, MD, Mark S. Myerson, MD, Vinod K. Panchbhavi, MD, David B. Thordarson, MD, Keith L. Wapner, MD

Moderator: Ashish Shab, MD

Course presenters discuss the fundamentals of conservative and surgical management of most common foot and ankle pathologies like acute achilles rupture, plantar fasciitis, equinus contracture [gastrocnemius tightness], sesamoiditis, and metatarsalgia; and also helps participants to understand the different controversies in treatment of these common pathologies by active discussion with the faculty.

Friday, March 9 1:30 PM - 3:30 PM

Management of Complex Foot and Ankle Injuries in the Athlete
J. Chris Coetzee, MD, Kenneth Hunt, MD, Kevin E. Varner, MD

Moderator: Robert B. Anderson, MD

Treating foot and ankle injuries in athletes requires an understanding of their unique mechanism, surgical options, and rehabilitation issues. These are addressed for stress fractures, ligament injuries, achilles/peroneal tendon disorders, and the syndemosis.

Friday, March 9 4:00 PM - 6:00 PM

Osteochondral Lesions of the Talus: Current Treatment Dilemmas
Eric Giza, MD, John G. Kennedy, MD, James W. Stone, MD

Moderator: Alastair S. E. Younger, MD

Explore the natural history of the untreated osteochondral lesion of the talus as well as current treatment options, including arthroscopic autograft, allograft, or autologous chondrocyte implantation.

Register and plan your education at www.aaos.org/annual
EDUCATIONAL SESSIONS

**General**

**Tuesday, March 6** 8:00 AM - 9:00 AM

**CD1** Preparing and Delivering the Orthopaedic Lecture: Tips and Pearls

James J. McCarthy, MD, Theodore W. Parsons, III, MD, David L. Skaggs, MD

**Moderator:** James H. Beaty, MD

This course focuses on utilizing PowerPoint especially for the medical professional and developing a lecture for an orthopaedic audience. Learn tips and tricks you can use to enhance your teaching skills when participating in educational sessions for your colleagues and for patient education – both individually and community wide.

**Tuesday, March 6** 8:00 AM - 10:00 AM

**104** Orthopaedic Surgery for Adults with Cerebral Palsy

Henry G. Chambers, MD, Joshua E. Hyman, MD, Michael W. Shradler, MD

**Moderator:** Philip D. Nowicki, MD

This course presents an overview of typical orthopaedic surgical procedures that adults with cerebral palsy (CP) may need.

**105** Antibiotic Stewardship in Orthopaedic Surgery: Principles and Practice

Matthew P. Abdel, MD, Peter N. Chalmers, MD, John Segreti, MD

**Moderator:** Brett R. Levine, MD

The emergence of resistance, geographical diversity of infecting pathogens, and changing patient population requires customization of our prophylactic regimen to reduce infectious complications. A multidisciplinary approach to an antimicrobial stewardship program leads to improved patient outcomes and cost-effective medical care.

**182** Adult Sequelae of Pediatric Problems

Benjamin Alman, MD, Michael P. Bolognesi, MD, Mark E. Easley, MD, John E. Herzenberg, MD, William A. Jiranek, MD, Robert K. Lark, MD, William G. Mackenzie, MD, Michael D. McKee, MD, Shawn W. O’Driscol, MD, Emil H. Schemitsch, MD

**Moderator:** Klane K. White, MD

The management of common pediatric orthopaedic problems that present with sequelae to adult orthopaedists are discussed, with an emphasis on identifying the surgical approach as children, and as adults, to optimize the ultimate outcome.

**Tuesday, March 6** 9:30 AM - 10:30 AM

**CD2** Cultural Considerations in Education and Patient Care

Guido Marra, MD

**Moderator:** Hassan R. Mir, MD, MBA

Successful cross-cultural patient communication is important. Course presenters review words that should not be used and those words that work best, as well as offer ways to improve your non-verbal body language. This course also is designed to help attendees implement three general principles for teaching those whose first language is not English and/or have cultural norms and operating procedures that are significantly different from those in the United States.

**Tuesday, March 6** 10:30 AM - 12:30 PM

**C** Innovation, Robotics, and Digital Solutions in Arthroplasty: Evolving Role in the Operating Room and Beyond!

C. Lowry Barnes, MD, Stefano A. Bini, MD, Michael P. Bolognesi, MD, William A. Jiranek, MD, R. Michael Meneghini, MD, Douglas E. Padgett, MD, Jonathan L. Scharff, MD

**Moderator:** Mark I. Froimson, MD

This symposium reviews and critically evaluates a number of new and exciting digital and robotic technologies that promise to improve surgical reliability and patient outcomes. This review allows attendees to evaluate the role of these technologies in their practice. Both advantages and disadvantages are discussed, including the economics, and methods to introduce such technology into practice are reviewed.

**125** Teaching Basic Orthopaedic Tool Skills Using an Operant Learning Program

Theresa R. McKeon, BA, Karen W. Pryor

**Moderator:** I. Martin Levy, MD

In this course the faculty demonstrates an orthopaedic skills program that uses unique teaching methodologies and innovative and inexpensive learning platforms to allow meaningful repetition.

**Tuesday, March 6** 11:00 AM - 12:00 PM

**CD3** Social Media and Orthopaedics: Establishing Your Online Reputation

J. Martin Leland, MD, Lance M. Silverman, MD

**Moderator:** Naven Duggal, MD

Social media is an emerging modality that can be viewed as a chance to update our approach to interacting with patients, data, and each other in important new ways. However, careful attention regarding patient privacy, liability, and HIPPA violations is required by the orthopaedist interested in utilizing this technology. With mindful use of social media, we are able to leverage our positions as trusted community leaders to create and nurture a much larger community.

© 2018 American Academy of Orthopaedic Surgeons
EDUCATIONAL SESSIONS

Tuesday, March 6 1:30 PM - 2:30 PM

**CD4**  Hot Marketing Topics to Build Your Practice  
*Tony Edwards*

**Moderator:** Bill Champion

Patient expectations regarding access have made a significant change within recent years, which is why orthopaedic practices are opening urgent care and walk-in clinics. Additionally, there has been a fundamental shift in a push for payors to reimburse orthopaedists based on documented value over a volume of procedures. This will have a direct impact on how patients utilize rating sites, search engines, and social media. This presentation will help doctors and executives have an understanding of the trends, the data that supports a practice’s strategy, and what to be prepared for in the near future.

**FF1**  Flash Five® What’s Coming Down the Pike?  
*Annunziato Amendola, MD, Stephen S. Burkhart, MD, Susan V. Bukata, MD, Michael J. Gardner, MD, James I. Huddleston, III, MD, Rex A. Marco, MD, Javad Parvizi, FRCS, Marc R. Safran, MD, Keith L. Waipner, MD, Alexander Vaccaro, MD, PhD*

**Moderator:** Marc R. Safran, MD

Experience a burst of knowledge given in five minutes on topics benefiting orthopaedists. Fast and focused...each expert takes on a hot topic and drills down to the most critical points and takeaways.

Tuesday, March 6 1:30 PM - 3:30 PM

**145**  Global Volunteerism for Orthopaedic Surgeons  
*Peter G. Trafton, MD, Divya Singh, MD, Todd S. Kim, MD*

**Moderator:** Coleen S. Sabatini, MD, MPH

Learn how to be an effective global volunteer and impart your orthopaedic knowledge to strengthen and empower the global health workforce by volunteering overseas.

**146**  Examination of the Shoulder for Beginners and Experts  
*C. Benjamin Kibler, MD, George A. Murrell, MD*

**Moderator:** Edward G. McFarland, MD

This is designed for beginner and experienced orthopaedic providers to learn the latest on physical examination of the shoulder.

Tuesday, March 6 3:00 PM - 4:00 PM

**CD5**  The Aging Surgeon  
*Ralph B. Blasier, MD*

**Moderator:** R. Dale Blasier, MD

Surgeons may not recognize deterioration of their physical and cognitive function and skills with age. It is best to be aware and develop an exit strategy.

Tuesday, March 6 4:00 PM - 6:00 PM

**163**  Thromboembolism Prophylaxis For Orthopaedic Surgeons: Update 2018  
*Mrudula Borse, MD, Jay R. Lieberman, MD, Douglas E. Padgett, MD*

**Moderator:** Paul F. Lachiewicz, MD

This is a comprehensive review of all aspects of pharmacologic and non-pharmacologic venous thromboembolism (VTE) prophylaxis for the practicing orthopaedic surgeon.

Tuesday, March 6 4:30 PM - 5:30 PM

**CD6**  Writing a Competitive Grant Application  
*Moderator: Kurt P. Spindler, MD*

Grants can be competitive and non-competitive. This course provides helpful tips and examples on writing a competitive grant application.

Wednesday, March 7 8:00 AM - 9:00 AM

**CD7**  Leadership at Every Level: Principles and Practice  
*Daniel J. Berry, MD, Thomas K. Fehring, MD, Joshua J. Jacobs, MD*

**Moderator:** Aaron G. Rosenberg, MD, FACS

This course is designed to help you implement your leadership skills at the local, regional, and national levels. Specifics of successful leadership are discussed, understanding that leaders are developed not born. Team building, mentoring, and inertia avoidance are discussed along with time management and strategies to maintain balance.

Wednesday, March 7 8:00 AM - 10:00 AM

**F**  Debating the Top Five Controversies in Hip Preservation  
*John C. Clohisy, MD, Benjamin G. Domb, MD, Christopher M. Larson, MD, Michael B. Milias, MD, Allan K. Mishra, MD, Javad Parvizi, FRCS, Thomas G. Sampson, MD, Marc Safran, MD, Robert T. Trousdale, MD, Stuart L. Weinstein, MD*

**Moderator:** Marc R. Safran, MD

Faculty debate five hip preservation controversies: management of mild dysplasia, partial gluteus tears, osteoarthritis, slipped capital femoral epiphysis, and the existence of hip instability without dysplasia.

**H**  What Can a Registry Do for Me?  
*David C. Ayers, MD, Kevin J. Bozic, MD, Richard De Steiger, MD, Peter A. Devane, MD, Ove N. Furnes, MD, Stephen Graves, MD, Brian R. Hallstrom, MD, David G. Lewallen, MD, Maziar Mohadess, MD, Robert S. Namba, MD, Martyn Porter, MD*

**Moderator:** Henrik Malchau, MD

What can a registry do for me? Learn about financial impacts of registries, identifying clinical best practices, improving patient care, implant selection, and new technology.
EDUCATIONAL SESSIONS

General

206 Musculoskeletal Ultrasound of the Extremities: Clinical and Ultrasonographic Correlation
Gina Ciavarra, Mobini Rawat, DPT, Wayne L. Stokes, MD
Moderator: Mukund R. Patel, MD
Musculoskeletal ultrasound is an important imaging modality that provides diagnostic accuracy at low cost. Its use and clinical pearls are discussed in this course.

Wednesday, March 7  9:30 AM - 10:30 AM

CD8 Optimizing Your Chances for Presentations and for Publications
Charles R. Clark, MD, Seth S. Leopold, MD, Guido Marra, MD
Moderator: Fares S. Haddad, FRCS
Understand the abstract submission and review process to increase the likelihood of acceptance. Learn how to write a focused, concise, and clear abstract that is heard by reviewers. This course offers a good understanding of the peer review process and its importance in scientific journals, provides key information on best practices and how to optimize papers for publication, and gives insight into how to review papers including a section on identifying research fraud.

Wednesday, March 7  11:00 AM - 12:00 PM

CD9 Managing Residents in 2018
R. Dale Blasier, MD, George S. Dyer, MD
Moderator: Kenneth A. Egol, MD
This course provides the learner with an assessment of barriers to the implementation of modern teaching strategies in orthopaedic residencies and discusses the historical and current models for training in the United States. Presenters discuss metrics for evaluation and present methods to improve resident assessment. This course also helps you design a plan as part of the educational process to foster success and target areas to deal with underperformance on a case-by-case basis. One size does not fit all!

CD10 Lifelong Learning: Teaching, Mentoring, and Work-Life Integration
John M. Flynn, MD, Richard H. Gelberman, MD, L. Scott Levin, MD
Moderator: William N. Levine, MD
This course provides orthopaedic surgeons with tips to endeavor toward a life of teaching, mentoring, and lifelong learning.

Wednesday, March 7  1:30 PM - 3:30 PM

CD11 Cliff Notes on Basic, Clinical, and Translational Research: What You Need to Get Started
Jay D. Keener, MD, Brian D. Snyder, MD, Kurt P. Spindler, MD
Moderator: Francis Y. Lee, MD, PhD
This course helps you understand scientific method and be able to design and complete a clinical research project. Formulate a clinically relevant hypothesis, perform a power analysis, and collect and analyze data. Determine when your results are worthy of abstract submission. Presenters also discuss the benchmarks, or standards, in technique and practice in the study of basic science and translational research.

Wednesday, March 7  3:00 PM - 4:00 PM

255 Teaching the Teachers: Improving Your Skills as an Orthopedic Motor Skills Instructor
Moderator: Joseph C. Tauro, MD
This course focuses on improving the teaching skills of orthopedic surgeons who participate or wish to participate as instructors in motor skills labs.

Wednesday, March 7  11:00 AM - 12:30 PM

226 Developmental Dysplasia of the Hip from Birth to Arthroplasty: Clear Indications and New Controversies
Travis H. Matheney, MD, Jonathan G. Schoenecker, MD, Stuart L. Weinstein, MD
Moderator: Scott B. Rosenfeld, MD
This course, designed for both the general orthopaedist and the pediatric specialist, covers key concepts and controversies in diagnosis and treatment of developmental dysplasia of the hip from birth through adulthood.

Wednesday, March 7  9:30 AM - 10:30 AM

227 The Way I See It...® Digital Health: A Sneak Peak into the Imminent Future
Moderator: Stefano A. Bini, MD
Learn the “whys” of what the experts do. Benefit from the inside story - what each presenter wants you to know about digital health. Topics include Telehealth, Virtual Reality, Big Data and Cybersecurity.

Wednesday, March 7  11:00 AM - 12:00 PM

244 Women in Orthopaedics - What You Really Want to Know (But are Too Afraid to Ask)
Kristen E. Fleager, MD, Amy L. Ladd, MD, Jennifer M. Weiss, MD
Moderator: Meghan N. Imrie, MD
This course addresses practical concerns facing women in orthopaedics such as pregnancy, maternity leave, work-life balance, and pursuing leadership positions.

Wednesday, March 7  3:00 PM - 4:00 PM

263 Mentorship in Orthopaedics: How to Succeed as a Mentor and a Mentee
Claudette M. Lajam, MD, Mary K. Mulcabey, MD, Vincent D. Pellegrini, MD
Moderator: Julie B. Samora, MD
Mentorship in orthopaedics and attributes of successful relationships are highlighted. Benefits of mentorship are discussed (increased work satisfaction, research productivity, diversity, promotion, recruitment/retention).
Thursday, March 8 8:00 AM - 9:00 AM
FF2  Flash Five® What’s Coming Down the Pike?
Stephen S. Burkhart, MD, Susan V. Bukata, MD, Michael J. Gardner, MD, James I. Huddleston, III, MD, Rex A. Marco, MD, Javad Parvizi, MD, FRCS, Marc R. Safran, MD, Keith L. Wapner, MD, Annunziato Amendola, MD, Alexander Vaccaro, MD, PhD
Moderator: Charles M. Davis, III, MD, PhD
Experience a burst of knowledge given in five minutes on topics benefiting orthopaedists. Fast and focused…each expert takes on a hot topic and drills down to the most critical points and takeaways.

Thursday, March 8 8:00 AM - 10:00 AM
304  Orthopaedic Disaster Course: Preparing for Your Worst/Best Moment in the Operating Room
Kevin A. Raskin, MD, Michael J. Weaver, MD, Carl M. Harper, MD
Moderator: Jacob W. Brubacher, MD
This course offers practical instruction to help prepare for and master operating room disasters and emergencies. Review anatomy and technical pearls to help avoid panic and gain control of pelvic/extremity disasters.

Thursday, March 8 11:00 AM - 12:30 PM
326  Pathologic Postoperative Pain: What Every Orthopaedic Surgeon Should Know
Ian Carroll, MD, Vivianne L. Tawfik, MD
Moderator: Catherine Curtin, MD
Orthopaedic procedures result in some patients developing pain that persists long after the wounds have healed. This course reviews pain from mechanism to treatment.

Register and plan your education at www.aaos.org/annual
EDUCATIONAL SESSIONS

General

Friday, March 9 11:00 AM - 12:30 PM
424 The Practical Application of Adipose-Derived Cell Therapy in Private Practice
Champ Baker, III, MD, Claude T. Moorman, III, MD
Moderator: Joanne Halbrecht, MD
Adipose-derived cell therapy is a viable option for the treatment of a variety of orthopaedic pathologies. The indications and outcomes are presented and discussed.

Friday, March 9 1:30 PM - 3:30 PM
443 Is Medical Clearance Enough? Understanding Medical Issues that Can Affect Your Patients’ Outcomes
Antonia Chen, MD, Charles N. Cornell, MD
Moderator: Joseph M. Lane, MD
Course presenters discuss the many systemic, endocrine, and nutritional issues that can affect your patient’s outcome that are not addressed by medical clearance.

TWISI4 The Way I See It... Orthopaedic Surgeons Changing the Game
Kevin J. Bozic, MD, MBA, Scott A. Rodeo, MD, Paul Tornetta, III, MD
Co-Moderators: James R. Ficke, MD, Leesa M. Galatz, MD
Learn the “whys” of what the experts are foreseeing in health care. Benefit from the inside story - what each presenter wants you to know about this top-of-the-mind issue. Experts share their knowledge and experiences, just the way they see it (Presented with Game Changers Paper Session).

Friday, March 9 4:00 PM - 6:00 PM
463 Platelet-Rich Plasma, Bone Morphogenetic Protein, and Stem Cells: What Surgeons Need to Know
Brian T. Feeley, MD, Harvey E. Smith, MD, Seth K. Williams, MD
Moderator: Wellington K. Hsu, MD
Course presenters discuss the most important biologics in orthopaedic surgery, including growth factors, cell therapy, and pharmacologics to promote bone and soft tissue healing.

Hand and Wrist

Tuesday, March 6 8:00 AM - 10:00 AM
106 Managing Wrist Arthritis
Joseph E. Imbriglia, MD, William B. Kleinman, MD, Robert J. Strach, MD
Moderator: Peter Tang, MD
This course covers the current treatment options for wrist arthritis as well as the evidence to support them. The faculty shares their treatment algorithms.

Tuesday, March 6 10:30 AM - 12:30 PM
126 Why I Cannot Fix this Distal Radius Fracture with Volar Plate
Abhinav B. Chhabra, MD, Robert J. Medoff, MD, Joseph M. Sherrill, MD
Moderator: Nileshkumar Chaudhari, MD
Each faculty member presents a didactic lecture on specified fracture patterns, including information regarding fracture pattern, preoperative planning, selection of surgical approach, technique pearls, fixation options, complications, and difficulties associated with the fixation method of complex distal radius fracture.

Tuesday, March 6 1:30 PM - 3:30 PM
147 Managing Challenges in Thumb Carpometacarpal Arthritis
Donald H. Lee, MD, Tamara D. Rozental, MD, David S. Zelof, MD
Moderator: Julie E. Adams, MD
This ICL presents options for management of thumb carpometacarpal (CMC) arthritis and explores controversies and challenges. The role of nonoperative treatment and indications for surgery are explored.

Tuesday, March 6 4:00 PM - 6:00 PM
164 Reevaluation of the Scaphoid Fracture: What is the Current Best Evidence?
Geert Buijze, MD, A. Lee Osterman, MD, Scott W. Wolfe, MD
Moderator: Jesse B. Jupiter, MD
This ICL explores the most recent best evidence for the assessment and management of the scaphoid fracture to include fracture assessment, treatment, and outcomes.

Wednesday, March 7 8:00 AM - 10:00 AM
265 Treating Hand Fractures: A Case-Based Approach to their Management and the Ability to Treat the Complications that will Inevitably Occur
Joshua Abzug, MD, Raymond G. Gaston, MD, Peter J. Stern, MD
Moderator: A. Lee Osterman, MD
The management of hand fractures occurring in all age groups is presented in a case-based manner. Detailed discussion regarding pearls and pitfalls of initial treatment, avoiding the potential complications as well as managing them, aid orthopaedic surgeons in their practice.

Thursday, March 8 8:00 AM - 10:00 AM
306 Compression Neuropathies – Getting It Right So You Don’t Have to Do It Again or Deal with Complications
Moderator: Dean G. Sotereanos, MD
The management of compression neuropathies throughout the upper extremity are presented in a case-based manner. Detailed discussion regarding pearls and pitfalls of initial treatment, avoiding the potential complications as well as managing them, aid the orthopaedic surgeon in practice.
EDUCATIONAL SESSIONS

Thursday, March 8 11:00 AM - 12:30 PM
384 Common Conditions in Hand Surgery and How to Deal with their Complications
Julie E. Adams, MD, Karim Bakri, MD, Jerry I. Huang, MD, Jonathan E. Isaacs, MD, Peter J. Jebson, MD, Robin N. Kamal, MD, Mark S. Rekant, MD, Marc J. Richard, MD, Tamara D. Rozental, MD, Jeffrey Yao, MD, Moderator: Sanjeev Kakar, MD
Course presenters detail some of the most common hand and wrist conditions you will see and provide tips and tricks for appropriate management.

Thursday, March 8 1:30 PM - 3:30 PM
345 Mimickers of Hand and Upper Extremity Infections – How to Avoid Misdiagnosis and Mistreatment
John J. Fernandez, MD, Levi Hinkelman, MD, Peter J. Stern, MD, Moderator: Robert W. Wysocki, MD
Course faculty compares and contrasts the clinical features, diagnostic findings, and treatment principles of several conditions that mimic an upper extremity infection.

Thursday, March 8 4:00 PM - 6:00 PM
363 Infections of the Upper Extremity – New Developments and Challenges
Douglas R. Osmon, MD, Apurva Shah, MD, Robert W. Wysocki, Jr, MD, Moderator: Peter J. Jebson, MD
Course presenters review the role of the infectious disease consultant with an emphasis on serological testing, diagnostic workup, and microbiological analysis. Through illustrative case examples, they discuss the key clinical features and treatment of necrotizing fasciitis, mucormycosis, and infections caused by mycobacteria and Vibrio species.

Friday, March 9 11:00 AM - 12:30 PM
483 Common Conditions Affecting the Ulnar Side of the Wrist: Demystifying Ulnar Wrist Pain
Ryan P. Calfee, MD, Abhinav B. Chhabra, MD, Greg Couzens, William B. Geissler, MD, Guillaume Herzberg, MD, Peter J. Jebson, MD, Robin N. Kamal, MD, Steve K. Lee, MD, Marc J. Richard, MD, Michael J. Sandow, MD, Moderator: Sanjeev Kakar, MD
This case-based ICL presents a myriad of disorders pertaining to the ulnar side of the wrist and discusses treatment options.

Friday, March 9 1:30 PM - 3:30 PM
444 Management Strategies for Scapholunate Ligament Injuries: From Occult Injury to Arthritis
Melvin P. Rosenwasser, MD, Dean G. Sotereanos, MD, Peter J. Stern, MD, Moderator: Julie E. Adams, MD
This instructional course lecture focuses upon strategies to recognize scapholunate (SL) ligament injuries and discusses treatment options in the acute and chronic setting, with and without arthritis.

Friday, March 9 4:00 PM - 6:00 PM
464 Tips and Tricks in the Management of Distal Radius Fractures
Julie E. Adams, MD, Jorge L. Orbay, MD, Paul Tornetta, III, MD, Moderator: Sanjeev Kakar, MD
The goal of this ICL is to provide an overview in the management of comminuted intra-articular distal radius fractures with technical tips and tricks.

Musculoskeletal Oncology

Tuesday, March 6  1:30 PM - 3:30 PM

186  How to Approach and Treat Metastatic Disease – Interactive and Case-Based Discussion
Patrick J. Boland, MD, Ginger E. Holt, MD, Francis J. Hornicek, MD, G. Douglas Letson, MD, Bryan S. Moon, MD, Carol D. Morris, MD, Peter S. Rose, MD, Kristy L. Weber, MD
Moderator: Valerae O. Lewis, MD
It is crucial for the general orthopaedic surgeon to know how to effectively recognize and work up osseous metastatic (or presumptive metastatic) disease. As the survival for this patient population continues to improve, appropriate and durable fixation/management is imperative. Case scenarios and surgical, non-invasive, and minimally invasive treatment options are discussed.

Wednesday, March 7  8:00 AM - 10:00 AM

208  Sports Tumors – How to Manage Orthopaedic Conditions in the Setting of Common Benign Tumors
Joseph Benevenia, MD, Lee R. Leddy, MD, Adam S. Levin, MD
Moderator: Wakenda K. Tyler, MD, MPH
This course is designed to help participants appreciate the appropriate recognition and work up of incidental masses noted on common musculoskeletal complaints, as well as develop practical solutions for safe and effective care for these conditions.

Wednesday, March 7  11:00 AM - 12:30 PM

J  Pathological Fractures: Diagnosis, Pathophysiology, Treatments, Complications, and Controversies through Case-Based Learning
Joseph Benevenia, MD, Edward Y. Cheng, MD, Matthew R. DiCaprio, MD, Michelle A. Ghert, MD, Bang H. Hoang, MD, Dieter Lindskog, MD, Benjamin J. Miller, MD, Christian M. Ogilvie, MD, Joseph H. Schwab, MD, Felasfa M. Wodajo, MD
Moderator: Francis Y. Lee, MD, PhD
This symposium covers essential medical knowledge and surgical skills for the management of metastatic cancers to bone and pathological fractures for community orthopaedic surgeons and musculoskeletal oncologists.

Wednesday, March 7  1:30 PM - 3:30 PM

246  Soft Tissue Tumors: A Pictorial and Guide to Diagnosis and Treatment
Timothy A. Damron, MD, Ginger E. Holt, MD, Carol D. Morris, MD
Moderator: Valerae O. Lewis, MD
The course is a pictorial-based guide to the management and treatment of soft tissue tumors. It was previously presented as a very well received and highly rated symposium.

EDUCATIONAL SESSIONS

Pediatrics

Tuesday, March 6 8:00 AM - 10:00 AM
107 Practical Guide to Avoiding and Managing Complications in Pediatric Spinal Deformity Surgery
Baron Lonner, MD, Sukan A. Shab, MD, Burt Yaszay, MD
POSNA
Moderator: Patrick J. Cahill, MD
This course addresses the complications of pediatric spinal deformity surgery and management. The format covers the major categories of complications – neurologic injury, infection, loss of fixation and pseudarthrosis, and medical complications.

Tuesday, March 6 10:30 AM - 12:30 PM
127 The Debate is On – Discussing the Controversies Surrounding Pediatric Fracture Care
Joshua Abzug, MD, Brian K. Brighton, MD, Christine A. Ho, MD
POSNA
Moderator: Martin J. Herman, MD
This course presents both sides of some controversies following common fractures in children. Treatment strategies for the fractures are presented as well as ways to avoid complications. Teaching methods include illustrative cases presented to the panel with evidence-based discussion for the controversies.

Tuesday, March 6 1:30 PM - 3:30 PM
148 Joint Preservation in the Pediatric and Adolescent Knee
Kevin G. Shea, MD, Eric J. Strauss, MD, Philip L. Wilson, MD
AOSSM
POSNA
Moderator: Charles A. Popkin, MD
This course reviews the latest techniques to treat complex problems in the pediatric knee, including meniscus transplant, tibial tubercle periosteum transfer, and management of failed osteochondritis dissecans (OCD).

Tuesday, March 6 4:00 PM - 6:00 PM
165 Do Not Fear Elbow Fractures in Children
Jack M. Flynn, MD, William L. Hennrikus, Jr, MD, Peter M. Waters, MD
POSNA
Moderator: David L. Skaggs, MD
Based on the latest literature, this course helps prepare an orthopaedic surgeon covering an emergency department to diagnose, treat, and avoid complications in pediatric elbow fractures such as lateral condyle fractures, radial neck fractures, medial epicondyle fractures, and supracondylar fractures.

Wednesday, March 7 8:00 AM - 10:00 AM
209 Challenges in Pediatric Trauma: What We All Need to Know
Keith D. Baldwin, MD Craig P. Ebersohn, MD, Pooya Hosseinzadeh, MD
POSNA
Moderator: Martin J. Herman, MD
This two-hour instructional course lecture provides the most up-to-date information about challenges commonly seen in taking care of fractures in children.

Wednesday, March 7 11:00 AM - 12:30 PM
K What’s New in Pediatric Sports Medicine?
Eric W. Edmonds, MD, Theodore J. Ganley, MD, Mininder S. Kocher, MD, Kevin G. Shea, MD, Eric J. Wall, MD
POSNA
Moderator: Shital N. Parikh, MD
Careful neglect was once an option for many pediatric sports injuries, but may not be anymore. This symposium discusses management of common diagnosis for the generalist.

Wednesday, March 7 1:30 PM - 3:30 PM
228 Pediatric Tumor Management: Current and Controversial
Alexandre Arkader, MD, Omobdion T. Binitie, MD, Antoinette W. Lindberg, MD
POSNA
Moderator: Mihir Thacker, MD
The diagnostic as well as treatment principles of pediatric bone and soft tissue tumors as well as controversies and emerging treatment methods are discussed.

Wednesday, March 7 4:00 PM - 6:00 PM
266 Surgical Techniques for Skeletally Immature Anterior Cruciate Ligament
Theodore J. Ganley, MD, Daniel W. Green, MD, Eric J. Wall, MD
POSNA
Moderator: Shital N. Parikh, MD
The presence of physis and potential for growth disturbances makes pediatric anterior cruciate ligament surgery challenging. This ICL focuses on varied surgical techniques to highlight pearls and complications.

Register and plan your education at www.aaos.org/annual
267  Treatment of Gait Issues in Ambulatory Children with Cerebral Palsy
   Kirk W. Dabney, MD, Pooya Hosseinzadeh, MD, Benjamin J. Shore, MD
   Moderator: Tom F. Novacheck, MD
   This two-hour instructional course lecture provides the most up-to-date information needed to evaluate and treat lower extremity problems in ambulatory children with cerebral palsy.

Thursday, March 8  
8:00 AM - 10:00 AM

P  Staying Out of Trouble in Pediatric Trauma: An Update in the Management of Fractures in Children
   Joshua M. Abzug, MD, Donald S. Bae, MD, Keith D. Baldwin, MD, Jack M. Flynn, MD, Charles A. Goldfarb, MD, Martin J. Herman, MD, Todd A. Milbrandt, MD, Anthony I. Riccio, MD, Wudbhav N. Sankar, MD, David L. Skaggs, MD
   Moderator: Pooya Hosseinzadeh, MD
   All you need to update yourself on the current management of pediatric fractures is presented by a diverse group of experts in this unique symposium.

Thursday, March 8  
11:00 AM - 12:30 PM

327  Office Management of Common Pediatric Fractures: Treatment Strategies to Optimize Success
   Martin J. Herman, MD, Richard W. Kruse, DO, Todd A. Milbrandt, MD
   Moderator: Bernard D. Horn, MD
   Most pediatric fractures are treated without surgery. This course teaches successful nonsurgical treatment of common pediatric fractures with practical, evidence-based advice and techniques.

Thursday, March 8  
1:30 PM - 3:30 PM

364  Pediatric Musculoskeletal Infections: What to Know, What to Do, When to Worry
   James H. Conway, MD, Martin J. Herman, MD, Jonathan G. Schoenecker, MD
   Moderator: Alexandre Arkader, MD
   Didactic presentations in a case-based format followed by discussion and interaction with the audience (Q/A) attracts general and pediatric orthopedists at any stage of their practice. The following aspects of pediatric musculoskeletal (MSK) infection are covered: pertinent pathophysiology, classification, microbiology, new laboratory testing and imaging, differential diagnosis, medical and surgical treatment, complications and sequelae, infection prevention, and current research in MSK infections.

Thursday, March 8  
4:00 PM - 6:00 PM

365  Lower Extremity Fractures in Children: How to Avoid Pitfalls and Manage Complications
   Todd A. Milbrandt, MD, Ryan D. Muchow, MD, Ken J. Noonan, MD
   Moderator: Pooya Hosseinzadeh, MD
   This two-hour instructional course lecture provides the most up-to-date information in the evaluation and treatment of common lower extremity fractures in children.

Friday, March 9  
8:00 AM - 10:00 AM

408  Diagnosis and Management of Common Conditions of the Pediatric Spine
   Dennis P. Devito, MD, Joshua S. Murphy, MD, Robert F. Murphy, MD
   Moderator: James F. Mooney, MD
   This course covers management of back pain and spinal deformity in pediatric and adolescent patients, including physical therapy, advanced imaging, bracing, operative strategies, and return to sports.

Friday, March 9  
11:00 AM - 12:30 PM

484  Adolescent Hip Pain: A Case-Based Approach to Common Causes
   Asheesh Bedi, MD, Young Jo Kim, MD, Christopher M. Larson, MD, Jeffrey J. Nepple, MD, Christopher L. Peters, MD, James Ross, MD, Klaus Siebenrock, MD, Ernest L. Sink, MD, Moritz Tannast, Ira Zaltz, MD
   Moderator: John C. Clohisy, MD
   This case-based ICL explores current evaluation and management strategies for adolescent patients with hip pain.
EDUCATIONAL SESSIONS

Practice Management

Tuesday, March 6  8:00 AM - 10:00 AM
108  The Future of Orthopaedic Practice: Which Practice Models will Remain Viable?
  Robert A. Butler, MD, John R. Corsetti, MD, Daniel B. Murrey, MD
  Moderator: Joshua C. Patt, MD
Healthcare reform will have a direct effect on orthopaedics. Hear from successful colleagues in a variety of practice settings about how they plan to survive and thrive.

Tuesday, March 6  8:00 AM - 11:00 AM
190  CPT and ICD-10 Coding Fundamentals for Starting Your Practice
  **Moderator: Margaret Maley, BSN, MS**
By the end of the course, residents can identify how ICD-10 diagnosis coding will impact your documentation for five common orthopaedic diagnoses; demonstrate how to use technology to find the correct ICD-10 diagnosis in real time; understand how relative value units (RVUs) may be used to calculate your reimbursement or bonus if you are an employed physician; know how procedures are discounted by payors and how arthroscopic procedures are discounted differently; describe how modifiers protect reimbursement; and understand what is included in the global surgical package. Join us for this complimentary workshop that is so important to your career!

PLEASE NOTE: This course focuses on issues uniquely relevant to the practice of orthopaedic surgery in the United States. For this reason, registration for this course is restricted to orthopaedic residents living in the United States.

Tuesday, March 6  10:30 AM - 12:30 PM
128  Comprehensive Care for Joint Replacement: Understanding and Managing Orthopaedic Bundled Payments – What You Need to Know
  Irini Danial, Dennis J. O’Donnell, PT, Jequeatta Smith, MPH
  **Moderator: John Cherf, MD, MPH**
This course provides a comprehensive analysis of orthopaedic bundled payments to include historical experience, operational details, upsides/downsides, obstacles, and opportunities to optimize clinical and financial performance.

Register and plan your education at www.aaos.org/annual
Tuesday, March 6  12:30 – 5:00 PM
191  Practice Management for Residents and Fellows-in-Training

Co-Moderators: John R. Corsetti, MD and Laura Phieffer, MD
This fast-paced session uses didactic lectures and panel discussions to provide the foundation for an effective transition from resident to practicing physician. This course is designed to cover the most pertinent issues for this daunting transition. This half-day course covers essential elements of practice management not covered in most residency programs and, while especially beneficial for fourth-year and fifth-year residents, all residents are welcome. Topics include clinical core competencies, tips for a successful job search, preparing for an interview, negotiating physician employment contracts, building a successful practice, managing your orthopaedic practice finances, tips to increase your income, and managing personal finances now that you have landed your first job. Join us for this complimentary session.

PLEASE NOTE: This course focuses on issues uniquely relevant to the practice of orthopaedic surgery in the United States. For this reason, registration for this course is restricted to orthopaedic residents living in the United States.

Tuesday, March 6  1:30 PM - 3:30 PM
192  Leading Musculoskeletal Care Delivery Systems in the Era of Value-Based Health Care

Karl Koenig, MD, Daniel B. Murrey, MD, David C. Ring, MD, Michael Suk, MD
Moderator: Kevin J. Bozic, MD, MBA
The US healthcare system is shifting to value, requiring orthopaedic surgeons to develop new skills and strategies for leading multi-disciplinary, patient-centered care delivery teams.

Tuesday, March 6  1:30 PM - 4:30 PM
166  Ten Hot ICD-10 and CPT Coding Issues Facing Practicing Orthopaedic Surgeons

Moderator: Margaret Maley, BSN, MS
At the conclusion of this course, participants are able to demonstrate how to use technology to find the correct ICD-10 diagnosis in real time; identify the category of any injury diagnosis in ICD10-CM; appropriately document fracture treatment to support ICD-10 coding; use the modifier 58 for staged procedures correctly; define the common use of the modifier 59 in hip, knee, and shoulder surgery; understand and use Modifier 22 for unusual service with confidence.

Tuesday, March 6  4:00 PM - 5:00 PM
TWISI1  The Way I See It...® Future of Health Care

Pablo Castaneda, MD, David S. Jevsevar, MD, MBA
Moderator: Joseph A. Bosco, III, MD
Learn the “whys” of what the experts are foreseeing in health care. Benefit from the inside story - what each presenter wants you to know about this top-of-the-mind issue. Experts share their knowledge and experiences, just the way they see it.

Tuesday, March 6  4:00 PM - 6:00 PM
186  Electronic Risks In Orthopaedics

Michael Marks, MBA, Michael J. Sacopulos, JD, Jeffrey Segal, JD
Moderator: Michael Marks, MBA, MD
From your smartphone to your electronic health records system, the digital age provides risks and opportunities. Learn how to protect yourself from electronic risks.

Wednesday, March 7  8:00 AM - 10:00 AM
210  Electronic Health Records (EHRs): Enhancing Patient Care

Thomas C. Barber, MD, Thomas B. Fleeter, MD, Tadashi T. Funahashi, MD
Moderator: Ronald W. Wyatt, MD
Efficient use of electronic health records promotes patient safety, but improvements in patient care quality may require upgraded systems and enhanced practice models.

Wednesday, March 7  11:00 AM - 12:30 PM
229  Patient Satisfaction, Reimbursement, and Online Reputation Management

Basil R. Besh, MD, Thomas H. Lee, MD, Andrea Pearson, BS
Moderator: Glenn B. Pfeffer, MD
Course faculty discusses patient satisfaction ratings and online reputation management, and their effect on orthopaedic practice and reimbursement.

Wednesday, March 7  11:00 AM - 12:30 PM
230  Hospital Alignment Strategies

James M. Daniel, JD, Michael A. Swarzman, MA
Moderator: John Cherf, MD, MPH
Rapid strategic change is being driven by dynamic shifts in financial incentives, the competitive marketplace, quality measurement, proposed health reform, lifestyle concerns, and a changing social compact between hospitals and physicians. Course faculty discuss new models emerging to successfully align interests.
EDUCATIONAL SESSIONS

Wednesday, March 7  1:30 PM - 3:30 PM

M The Opioid Epidemic: America’s Addiction
Sheyan Armaughani, MD, Tessa Balach, MD,
Thomas F. Higgins, MD, Joseph R. Hsu, MD,
Kelly Hynes, MD, Hassan R. Mir, MD,
David C. Ring, MD,
Moderator: Megan Conti Mica, MD
This symposium identifies the opioid epidemic and provides tools to treat pain while reducing narcotic consumption and addiction.

Wednesday, March 7  4:00 PM - 6:00 PM

268 Patient-Reported Outcomes in Orthopaedics – Why and How We Collect Them
David C. Ayers, MD, Judith F. Baumhauer, MD, MPH,
Adam B. Yanke, MD
Moderator: Eric C. Makbri, MD, MBA
Patient-reported outcomes (PRO) are becoming increasingly important in orthopaedics. Learn why they are important to collect and how to collect them in your practice.

Thursday, March 8  8:00 AM - 10:00 AM

308 Designing and Implementing Value-Based Care Delivery and Payment Models for Musculoskeletal Care
David S. Jevsevar, MD, Aakash Keswani, MD,
Karl Koenig, MD
Moderator: Kevin J. Bozic, MD, MBA
Course faculty describe how patient-centered, team-based care delivery models (such as integrated practice units) and risk-based contracting enable orthopaedic surgeons to manage the musculoskeletal health of patient populations.

Thursday, March 8  11:00 AM - 12:30 PM

328 How to Receive Your Comprehensive Care for Joint Replacement (CJR) Reconciliation Check from Medicare: Maximizing Your CJR Quality Score
David S. Jevsevar, MD, Alexandra E. Page, MD,
Adolph J. Yates, MD
Moderator: Gregory A. Brown, MD, PhD
The Comprehensive Care for Joint Replacement requires a Quality Score to receive any reconciliation payments. The details of the quality score are explained.

Thursday, March 8  1:30 PM - 3:30 PM

348 Risk Evaluation and Management Strategies for Prescribing Opioids
Moderator: David C. Ring, MD
This course details the Food and Drug Administration’s risk valuation and mitigation strategy opioid program, assists physicians in safe narcotic dosing, and outlines risks of inappropriate narcotics prescribing. This course is organized by the AAOS Medical Liability Committee.

Thursday, March 8  4:00 PM - 6:00 PM

366 Quality Measure: What You Should Know About Your Subspecialty
Derek F. Amanatullah, MD, Serena S. Hu, MD,
Sanjeev Kakar, MD
Moderator: Robin N. Kamal, MD
Quality measures judge quality of care provided by orthopaedic surgeons but often do not address meaningful areas of care or ignore impactful areas of care.

Friday, March 9  8:00 AM - 10:00 AM

409 Strategies for Success: Effective Communication is Key for a Safe and Productive Practice
Mary I. O’Connor, MD, David C. Ring, MD,
John R. Tongue, MD
Moderator: Julie E. Adams, MD
The ability to effectively and efficiently communicate with our patients, peers, leaders, and support staff is critical to optimize patient care and safety. This ICL focuses on tips and techniques to improve your ability to communicate effectively. Specific strategies to obtain informed consent, solicit patient input to care, and to disclose complications or unanticipated outcomes are discussed. Techniques are offered to help counsel patients with goals that do not align with available treatment options, or those in difficult situations. The challenges of care for a patient who is frustrated by a complication or failed treatment are explored.

Friday, March 9  11:00 AM - 12:30 PM

425 It’s a Brave New World: Alternative Payment Models and Value Creation in Total Joint Replacement
Joseph A. Bosco, III, MD, Ryan Nunley, MD,
Owen R. O’Neill, MD
Moderator: Richard Iorio, MD
As healthcare reform continues to evolve, there will need to be an emphasis on generating value, improving quality, and decreasing cost. As fee for service loses its grip on total joint replacement (TJR) reimbursement, value-based purchasing will become more common place.

Friday, March 9  1:30 PM - 3:30 PM

446 The Introduction of New Technology into Orthopaedic Practices
Thomas C. Barber, MD, Thomas B. Fleeter, MD,
Stephen Graves, MD
Moderator: Ronald W. Wyatt, MD
As orthopaedic surgeons adopt new technology to improve patient safety and outcomes, they should be aware of legal, regulatory, reimbursement, and operational challenges.

EDUCATIONAL SESSIONS

Shoulder and Elbow

Tuesday, March 6 8:00 AM - 10:00 AM

109 Shoulder Instability: Technical Skills
Moderator: James P. Bradley, MD
This course provides technical guidance for arthroscopic and open management of anterior, posterior, and multidirectional instability as well as revision surgery and management of bone loss.

Tuesday, March 6 10:30 AM - 12:30 PM

129 How to Deal with Bone Loss in Unstable Shoulder
Stephen S. Burkhart, MD, Eiji Itoi, MD, Hiroyuki Sugaya, MD
Moderator: John M. Tokish, MD
This program defines on-track/off-track Hill-Sachs lesion, introduces validation studies of this concept, and shows treatment options for critical-sized bone loss.

Tuesday, March 6 1:30 PM - 3:30 PM

183 How to Avoid Complications in Elbow Trauma: A Case-Based Interactive Discussion
Samuel A. Antuna, MD, George S. Athwal, MD, Gregory I. Bain, MD, Mark A. Mighell, MD, Lars P. Mueller, PhD, Bradford O. Parsons, MD, Joaquin Sanchez-Sotelo, MD, Scott P. Steinmann, MD, Thomas (Quin) Throckmorton, MD
Moderator: Graham J. King, MD
An international panel of experts and participants are challenged with a series of cases of common elbow injuries and their complications. Groups of participants facilitated by a faculty member discuss and debate critical issues to prevent and treat common complications. Additionally, the moderator probes the faculty on controversial topics.

Wednesday, March 7 8:00 AM - 10:00 AM

211 Elbow Arthroscopy: Indications, Techniques, Outcomes, and Complications
John E. Conway, MD, Michael J. O’Brien, MD, Matthew L. Ramsey, MD
Moderator: Felix H. Savoie, III, MD
This course outlines techniques for performing arthroscopic procedures at the elbow, with a specific focus on indications, tips and pearls, and outcomes and alternative treatment strategies. Potential complications are studied with an emphasis on how to avoid them.

Register and plan your education at www.aaos.org/annual
EDUCATIONAL SESSIONS

Pascal Boileau, MD, Bassem T. Elhassan, MD, Mark A. Frankle, MD, Laurent Lafosse, MD, Mark D. Lazarus, MD, Anand M. Murthi, MD, Howard D. Routman, DO, Joaquin Sanchez-Sotelo, MD, Gilles Walsh, MD, Gerald R. Williams, Jr, MD
Moderator: Joseph A. Abboud, MD
This is a case-based instructional course designed to allow the attendee to learn from world-renowned experts about the thought processes they implement when performing revision reverse shoulder arthroplasty.

Wednesday, March 7 11:00 AM - 12:30 PM

231 The Changing Face of Shoulder Arthroplasty: An Outpatient Procedure whose Time has Come
Alicia K. Harrison, MD, Bradford O. Parsons, MD, Thomas (Quin) Throckmorton, MD
Moderator: Jonathan P. Braman, MD
With an increasing frequency, many hip and knee replacements lend themselves to an outpatient location. Shoulder arthroplasty, because ability to ambulate postoperatively is unaffected, is increasingly being studied as a procedure amenable to the ambulatory setting. This course focuses on pros and cons of outpatient total shoulder replacement, provides guidelines for patient selection, and presents experiences in three different settings.

232 Clavicle Trauma: From Midshaft Fractures in Contact Athletes to Distal Clavicle Fractures and Acromioclavicular Joint Injuries
Seth C. Gamradt, MD, Matthew J. Matava, MD, Jonas R. Rudzki, MD
Moderator: Michael D. McKee, MD
This course is a comprehensive review of clavicle trauma from mid-shaft fractures in contact athletes and the general population to distal clavicle fractures and acromioclavicular joint dislocations.

Wednesday, March 7 1:30 PM - 3:30 PM

248 State of the Art on Grafts and Patches in Rotator Cuff Surgery: Superior Capsule Reconstruction, Augmentation, Interposition, and Bio-Inductive Scaffolds
F. Alan Barber, MD, Mark H. Getelman, MD, John M. Tokish, MD
Moderator: Richard K. Ryu, MD
This course focuses on incorporating innovative biologic grafts and patches in treating rotator cuff disease. Indications, complications, and advanced surgical techniques are emphasized.

Wednesday, March 7 4:00 PM - 6:00 PM

269 The Ten Elbow Cases that Helped Me to Improve Patient Care
Raffy Mirzayan, MD, Anand M. Murthi, MD, Paul Sethi, MD
Moderator: Bradford O. Parsons, MD
This course is designed to help understand the technical difficulties encountered when performing a revision shoulder arthroplasty. We demonstrate techniques for preoperative evaluation and planning, surgical approach, humeral and glenoid component removal, successful bony reconstruction, and component re-implantation. The course includes revision of both anatomic and reverse shoulder arthroplasty.

Thursday, March 8 8:00 AM - 10:00 AM

Q International Perspectives on Shoulder Arthroplasty: Around the World in 120 Minutes
Samuel A. Antuna, MD, April D. Armstrong, MD, George S. Athwal, MD, Pascal Boileau, MD, Alessandro Castagna, MD, David M. Dines, MD, Anders L. Ekelund, MD, Mark A. Frankle, MD, Charles L. Getz, MD, Lawrence V. Gulotta, MD, Hans P. Habermeyer, MD, Jeffery S. Hughes, MBBS, Eric T. Ricchetti, MD, John W. Sperling, MD, Gilles Walsh, MD, Thomas W. Wright, MD
Moderator: Thomas (Quin) Throckmorton, MD
Shoulder arthroplasty is rapidly evolving with multiple areas of debate. This symposium describes current controversies and how they are addressed around the world.
EDUCATIONAL SESSIONS

Thursday, March 8
11:00 AM - 12:30 PM
309 How to Manage the Failed Rotator Cuff Repair in the Younger Patient (< 50)
Bassem T. Elhassan, MD, Anand M. Murthi, MD, Robert Z. Tashjian, MD
Moderator: Joseph A. Abboud, MD
The target audience for this course is surgeons who are trying to more effectively manage patients with failed rotator cuff repairs who need operative treatment. The focus is on evidence-based methods, specifically non-arthroplasty options.

Thursday, March 8
1:30 PM - 2:30 PM
329 Pain Management after Shoulder Surgery – What Works?
Anthony R. Brown, MD, Anand M. Murthi, MD, Surena Namdari, MD
Moderator: William N. Levine, MD
This course addresses pain management after shoulder surgery and reviews regional nerve blockade, intraoperative soft tissue infiltration, and analgesic medication protocols and their efficacy.

Thursday, March 8
1:30 PM - 3:30 PM
330 When You’re Running Out of Room: Managing Humeral and Glenoid Bone Loss in Shoulder Arthroplasty
Joaquin Sanchez-Sotelo, MD, John W. Sperling, MD, Thomas (Quin) Throckmorton, MD
Moderator: Thomas R. Duquin, MD
This course is designed to help understand and treat bone loss of the glenoid and humerus that is encountered in primary and revision shoulder arthroplasty.

Thursday, March 8
1:30 PM - 3:30 PM
SD2 Showdowns® Management of Cuff Tears
Stephen S. Burkhart, MD, Bassem T. Elhassan, MD, John E. Kuhn, MD, Bradford O. Parsons, MD
Moderator: Jon J. Warner, MD
This course features your orthopaedic colleagues debating topics and techniques that demonstrate their point of view, and you decide who wins. This special one-hour event utilizes the Audience Response System (on the My Academy mobile app) for you to declare the winner of the showdowns!

Thursday, March 8
1:30 PM - 3:30 PM
349 Contemporary Issues with the Management of Distal Humerus Fractures in the Older Aged Patient
Shawn W. O’Driscoll, MD, Graham J. King, MD, Scott P. Steinmann, MD
Moderator: Jesse B. Jupiter, MD
This course evaluates contemporary options and outcomes for the management of distal humerus fractures in the older aged patient.

Thursday, March 8
4:00 PM - 6:00 PM
410 I’ve Got a Culture Positive for P. Acnes—What Do I Do Now? The Diagnosis and Management of Periprosthetic Shoulder Infections
Jason Hsu, MD, Eric T. Ricchetti, MD, John W. Sperling, MD
Moderator: Grant E. Garrigues, MD
The diagnosis and management of periprosthetic shoulder infections are reviewed with an emphasis on P. acnes. Reconstructive challenges following shoulder explantation are presented in an interactive, case-based format.

Friday, March 9
8:00 AM - 10:00 AM
Mark A. Frankle, MD, Richard J. Hawkins, MD, Mark A. Mighell, MD
Moderator: Jonathan C. Levy, MD
Surgical management of complex three- and four-part proximal humerus fractures has improved with new technologies such as locked plates and the reverse shoulder arthroplasty. The goal is to better understand when to hold ‘em (fix), when to fold ‘em (arthroplasty), and when to walk away (nonoperative management). The course focuses on technical tips to assist in each surgical option together with expert opinion and literature review.

Register and plan your education at www.aaos.org/annual
**Shoulder and Elbow**

**Friday, March 9**

**11:00 AM - 12:30 PM**

426  **Management of the Challenging Rotator Cuff Tear**  
Brian J. Cole, MD, MBA, William N. Levine, MD,  
Nikhil N. Verma, MD  
**Moderator:** Brian R. Waterman, MD  
This course explores the systematic evaluation and management of challenging rotator cuff tears, including repair, augmentation, superior capsular reconstruction, balloon arthroplasty, and orthobiologic adjuncts.

**427  Total Shoulder Arthroplasty: Should I Be Using a Stemless Prosthesis? When, Why, and How?**  
Mark D. Lazarus, MD, Ofer Levy, MD, Anand M. Murthi, MD  
**Moderator:** Joseph A. Abboud, MD  
The total shoulder market in recent years has exploded with new humeral stem designs from standard stems, platform stems, mini, micro, and stemless. This course helps practitioners navigate through this process and learn how to technically optimize the stem they choose.

**Friday, March 9**

**1:30 PM - 3:30 PM**

486  **Complex Shoulder Arthroplasty: Primary and Revision, Anatomic and Reverse, Three-Dimensional Planning – When and How?**  
David M. Dines, MD, Joshua S. Dines, MD, Michael T. Freehill, MD, Evan S. Lederman, MD, Xinning Li, MD, Bradford O. Parsons, MD, Anthony A. Romeo, MD, John M. Tokish, MD, Gilles Walch, MD, Jon J. Warner, MD  
**Moderator:** Asheesh Bedi, MD  
This course provides a case-based, comprehensive review of shoulder arthroplasty. Various preoperative conditions with deformity, glenoid, and/or humeral bone loss, and failed primary procedures are presented. A discussion of the appropriate work-up, imaging, considerations of preoperative templating, prosthetic selection, and surgical technique are reviewed and debated by key opinion leaders.

**Friday, March 9**

**4:00 PM - 6:00 PM**

465  **Massive, Irreparable Rotator Cuff Tears: What are Our Treatment Options?**  
Asheesh Bedi, MD, Pascal Boileau, MD, Bassem T. Elhassan, MD  
**Moderator:** Joshua S. Dines, MD  
Surgical techniques to treat irreparable rotator cuff tears are reviewed including the use of patches to reinforce partial repairs, tendon transfers, superior capsular reconstruction, and reverse shoulder replacement.

466  **The Young Arthritic Shoulder: Scope, Arthroplasty, Interposition, Fusion, and Resurfacing**  
**Moderator:** George S. Athwal, MD  
This course provides registrants with the most up-to-date treatment options for the young arthritic shoulder. The focus is on biologic options, arthroplasty, role of arthroscopy, as well as fusion.

**Spine**

**Tuesday, March 6**

**8:00 AM - 10:00 AM**

110  **Correction Strategies and Implant Placement in Spine Deformity Surgery – How I Do It**  
**Moderator:** Peter O. Newton, MD  
Through videos and technical discussion, this fast-paced course covers classic and contemporary spinal correction maneuvers outside of osteotomies with a focus on intraoperative assessment and appropriate intervention to optimize correction.

**Tuesday, March 6**

**10:30 AM - 12:30 PM**

130  **Adult Lumbar Scoliosis: State-of-the-Art Treatment (Operative and Nonoperative)**  
Vedat Deviren, MD, Robert A. Hart, MD, Christopher I. Shaffrey, MD  
**Moderator:** Munish C. Gupta, MD  
Utilizing lecture and case discussion, this course focuses on the definition of adult lumbar scoliosis and includes discussion on the radiographic, clinical, and surgical indications for correction.

**Tuesday, March 6**

**1:30 PM - 3:30 PM**

150  **Avoiding and Managing Complications in Cervical Spine Surgery**  
Ilyas Aleem, MD, Bradford L. Currier, MD, Clinton J. Devin, MD  
**Moderator:** Ahmad Nassr, MD  
Management of common complications such as dysphasia and dysphonia and more complex ones such as vertebral artery injuries, adjacent level disease, inadequate decompression, and fusion-related complications are discussed.

**Tuesday, March 6**

**4:00 PM - 6:00 PM**

168  **Avoiding and Managing Complications in Routine Lumbar Spine Surgery**  
**Moderator:** Harvey E. Smith, MD  
This course focuses on general spinal practice with discussion on prevention and management of complications.

Thursday, March 8 1:30 PM - 3:30 PM
385 Adult Spinal Deformity:
Surgical Planning and Complications
Christopher Ames, MD, Robert S. Bess, MD, Darrel S. Brodke, MD, Thomas J. Errico, MD, Khaled M. Kebaish, MD, Michael P. Kelly, MD, Rex A. Marco, MD, Gregory M. Mundis, MD, Rajiv K. Sethi, MD
Moderator: Robert A. Hart, MD
Cases focus on various scenarios of adult spinal deformity (untreated idiopathic scoliosis, degenerative lumbar scoliosis, flat back syndrome, the older adult deformity patient) as well as complications of treatment (interoperative spinal cord signal changes, proximal junctional failure, and non-union with rod fracture).

Thursday, March 8 4:00 PM - 6:00 PM
368 Is It the Back or the Hip? Differentiating Lumbar Spine from Hip Pathologies: Key Points of Evaluation and Treatment
Moderator: Stuart H. Hershman, MD
This course focuses on the causes and overlapping clinical presentation of lumbar spine and hip pathology. Key diagnostic methods, clinical signs, and exam findings used to differentiate them, as well as common treatment options, are discussed.

387 Degenerative Spondylolisthesis: An Evidence-Based Assessment of Treatment Options and Outcomes
Theodore J. Choma, MD, Scott D. Daffner, MD, Michael D. Daubs, MD, John G. Devine, MD, Daniel E. Gelb, MD, Mitchel B. Harris, MD, Gregory Lopez, MD, Robert W. Molinari, MD, Seth K. Williams, MD
Moderator: John C. France, MD
This course covers treatment options and outcomes for degenerative spondylolisthesis. The cases review diagnostic, nonsurgical, and surgical techniques to show interventions that the literature supports and those that need further investigation.

Friday, March 9 11:00 AM - 12:30 PM
Charla R. Fischer, MD, Alan S. Hilibrand, MD, Kristen E. Radcliffe, MD
Moderator: Afshin Razi, MD
This course offers a concise review of the diagnosis, management, and treatment of common adult lumbar spine disorders seen in general orthopaedic office. The faculty discusses the best practices for evaluation including diagnostic tests for these disorders, as well as conservative treatment options including pharmaceutical and rehabilitation modalities. This course provides evidence-based guidelines for evaluation and nonoperative treatment options. Additionally, the general orthopaedic surgeon gains knowledge on the current surgical indications and procedures using up-to-date best practices in 2018, to aid in counseling patients.

Friday, March 9 1:30 PM - 3:30 PM
413 Treating the Aging Spine
Mark L. Prasarn, MD, William R. Spiker, MD, Joseph M. Zavatsky, MD
Moderator: Robert A. McGuire, MD
This course targets orthopaedists who treat spinal conditions in the elderly – from osteoporosis and fractures to degenerative deformities.

Friday, March 9 4:00 PM - 6:00 PM
447 Modern Techniques in the Treatment of Patients with Metastatic Spine Disease
Matthew W. Colman, MD, Marco Ferrone, MD, Joshua C. Patt, MD
Moderator: Peter S. Rose, MD
This course focuses on which patients with spinal metastatic disease may benefit from surgery vs. radiation therapy. In addition, advanced spine surgical techniques are presented.

Friday, March 9 8:00 AM - 10:00 AM
412 What is the Role of Anterior, Oblique, Posterior, and Laterally Based Surgery: How Can They Help?
Neel Anand, MD, Joseph Laratta, MD, Juan S. Uribe, MD
Moderator: Ronald A. Lehman, MD
This course includes case-based discussions surrounding the various lumbar interbody fusion techniques: anterior, lateral, oblique and MIS-posterior. Participants understand the indications, benefits, limitations, complications, and technical pearls.

EDUCATIONAL SESSIONS

Sports Medicine

Tuesday, March 6 8:00 AM - 10:00 AM

111  From the Glenoid to the Radial Tuberosity – Management of Bicep Pathology in 2018
Rachel M. Frank, MD, Laith M. Jazrawi, MD, Eric J. Strauss, MD
Moderator: Anthony A. Romeo, MD
This course provides a comprehensive overview of management of the biceps from the glenoid to the radial tuberosity, with an evidence-based approach focusing on the cost-effectiveness and value of all available surgical approaches.

112  Problematic Stress Fractures
David C. Flanigan, MD, Timothy Miller, MD, Rick W. Wright, MD
Moderator: Christopher C. Kaeding, MD
This case-based lecture series presents classification and treatment strategies for troublesome stress fractures of the upper and lower extremities with details of their causative pathophysiology.

Tuesday, March 6 10:30 AM - 12:30 PM

131  The Management of Meniscal Pathology: From Partial Meniscectomy to Transplantation
Philip A. Davidson, MD, Laith M. Jazrawi, MD, Michael J. Salata, MD
Moderator: Eric J. Strauss, MD
This instructional course lecture provides a focused consolidation of expert lectures on current diagnoses and management of meniscus pathology and treatment.

184  Knee Preservation Surgery in the Young Adult: A Case-Based Approach with US and International Perspectives
Seongil Bin, MD, William Bugbee, MD, Brian J. Cole, MD, MBA, Ramon B. Cugat, MD, Alan Getgood, MD, Robert F. LaPrade, MD, Vasilios Moutzouros, MD, Robert Smigieliski, MD, Michael J. Stuart, MD, Peter Verdonk, MD
Moderator: Gonzalez Samitier Solis, MD
This is a case presentation ICL. Several cases are exposed exploring treatment options and rationale to solve difficult knee combined injuries in young adults.

Tuesday, March 6 1:30 PM - 3:30 PM

151  Primary Anterior Cruciate Ligament Reconstruction (ACL-R): Getting It Right the First Time
Bernard R. Bach, MD, Asheesh Bedi, MD, Nikhil N. Verma, MD
Moderator: Alexander Weber, MD
Skills gained include techniques for footprint/tunnel visualization, increased familiarity with dependent and independent tunnel drilling to improve footprint coverage, and enhanced graft fixation and tensioning are explored.

Tuesday, March 6 4:00 PM - 6:00 PM

169  Incorporating Biologics into Your Practice: The New Horizon in Sports Medicine
Brian J. Cole, MD, MBA, Scott A. Rodeo, MD, C. Thomas Vangsness, Jr, MD
Moderator: Laith M. Jazrawi, MD
Lectures, reviews of current research and literature, and audience participation provide attendees with a contemporary understanding of biologics and how to incorporate them into their own practices.

170  The Four Most Common Types of Cartilage Damage You Will See in Practice: How We Treat Them and Why
Alan Getgood, MD, Seth Sherman, MD, Adam B. Yanke, MD
Moderator: Christian Lattermann, MD
Course faculty discuss cartilage disease based on common real-life patient presentations, including osteochondritis dissecans, patellofemoral pain, postmeniscectomy pain, and incidental defects found during arthroscopy. They focus on patient selection and indications, leaving ample time for discussion.

Wednesday, March 7 8:00 AM - 10:00 AM

213  New Paradigms in the Throwing Shoulder
W. Benjamin Kibler, MD, Craig D. Morgan, MD, Brian J. Sennett, MD
Moderator: John D. Kelly, IV, MD
Course faculty members delve into the latest scientific research regarding the causation and mechanisms involved in injury to the throwing shoulder. The role of the scapula, glenohumeral internal rotational deficits (GIRD), retroversion, and kinetic chain are addressed. The most contemporary and efficient means of resolving labral, cuff, and capsular lesions are developed with particular attention paid to the rotator interval capsule. No handouts are available.

282  Complex Meniscal and Articular Cartilage Cases – Scratching the Surface
Robert A. Arciero, MD, Brian D. Busconi, MD, Charles A. Bush-Joseph, MD, Thomas M. DeBerardino, MD, Darren L. Johnson, MD, Robert G. Marx, MD, David R. McAllister, MD, Eric C. McCarty, MD, Claude T. Moorman, III, MD, Brian C. Werner, MD
Moderator: Mark D. Miller, MD
Using a series of actual cases involving significant knee injuries involving meniscus and/or articular cartilage, treatment options from simple to complex are discussed and debated.

EDUCATIONAL SESSIONS

Thursday, March 8

1:30 PM - 3:30 PM

R  Meniscus Management in 2018 - Debridement, Repair, Root Repair, and Transplantation: A Case-Based Approach

Jorge Chahla, JR, MD, Brian J. Cole, MD, MBA, Rachel M. Frank, MD, CAPT (Ret) Matthew T. Provence, MD

Moderator: Robert F. LaPrade, MD

The goal of this symposium is to provide a comprehensive overview of the utilization of different techniques for meniscus pathology including debridement, repair, root repair, and transplantation, with an evidence-based approach focusing on the cost-effectiveness and value of all available surgical approaches.

Thursday, March 8

4:00 PM - 5:00 PM

TWISI3  The Way I See It... © Challenges of Cartilage Repair and Restoration

Brian J. Cole, MD, MBA, Andreas H. Gomoll, MD, Bert Mandekabum, MD

Moderator: Jack Farr, II, MD

Learn the “whys” of what the experts are foreseeing in health care. Benefit from the inside story - what each presenter wants you to know about this top-of-the-mind issue. Experts share their knowledge and experiences, just the way they see it.

Thursday, March 8

4:00 PM - 6:00 PM

369  Top Controversies in Hip Arthroscopy

Marc J. Philippon, MD, Marc R. Safran, MD, Thomas G. Sampson, MD

Moderator: Dean K. Matsuda, MD

Lively debates are presented on top topics generating high interest and controversy in the growing/evolving field of hip arthroscopy.

Friday, March 9

8:00 AM - 10:00 AM

414  Patellar Instability and Dislocation: Optimizing Surgical Treatment and How to Avoid Complications

Elizabeth A. Arendt, MD, David Dejour, MD, Andreas H. Gomoll, MD

Moderator: Sabrina Strickland, MD

This ICL is designed to improve orthopaedic surgeon’s management of patellar instability. Focus is on decision making and surgical technique of medial patellofemoral ligament reconstruction, osteotomy, and trochleoplasty.

415  Acromioclavicular Joint Stabilization: Pearls and Pitfalls

Guillem Gonzalez-Lomas, MD, Robert J. Meislin, MD, Steven Strubl, MD

Moderator: Laith M. Jazrawi, MD

This course covers current concepts and diagnosis of acromioclavicular joint separations. It also addresses surgical options for stabilization including primary repair, coracoclavicular ligament reconstructions, and the role of distal clavicle resection.

Friday, March 9

11:00 AM - 12:30 PM

429  Optimizing Anterior Cruciate Ligament (ACL) Outcomes: What Else Needs Fixing Besides the ACL?

Annunziato Amendola, MD, Alan Getgood, MD

Moderator: Andreas H. Gomoll, MD

This ICL discusses how to identify and treat associated pathology of meniscus, ligaments, alignment, and cartilage that can compromise outcomes after anterior cruciate ligament reconstruction.

Friday, March 9

1:30 PM - 3:30 PM

Y  Everything You Need to Know about Knee Ligaments: A Case-Based Symposium

Joel L. Boyd, MD, Lars Engebretsen, MD, Gregory C. Fanelli, MD, Robert F. LaPrade, MD, Peter B. MacDonald, MD, Robert G. Marx, MD, Mark D. Miller, MD, James P. Stannard, MD, Michael J. Stuart, MD, Daniel Whelan, MD

Moderator: Bruce A. Levy, MD

This case-based symposium helps guide surgeons when treating isolated, combined, and multiple-ligament knee injuries and reviews the role of the anterior longitudinal ligament and osteotomies about the knee.

Friday, March 9

4:00 PM - 6:00 PM

448  Everything Pectoralis Major: From Repair to Transfer

Evan L. Flatow, MD, Young W. Kwon, MD, Eric J. Strauss, MD

Moderator: Laith M. Jazrawi, MD

This course reviews pectoralis major tendon pathology from diagnosis and management to indications for pec transfers for both instability and rotator cuff tear.

449  Issues of Alignment and Tibial Slope: When to Address and How?

David Dejour, MD, Alan Getgood, MD, Anil S. Ranawat, MD

Moderator: Volker Musahl, MD

This is a review of knee malalignment with a special focus on coronal plane and sagittal plane alignment. Indications for proximal tibia osteotomies and distal femur osteotomies and advantages and disadvantages of closing wedge and opening wedge osteotomies are presented.

Friday, March 9

4:00 PM - 6:00 PM

468  Cartilage Disease of the Patellofemoral Joint: Realignment, Restoration, Replacement

Andreas H. Gomoll, MD, Christian Lattermann, MD, Jess H. Lonner, MD

Moderator: Kevin B. Freedman, MD

This course reviews the entire spectrum of evaluation and treatment for patients with patellofemoral cartilage disease, including realignment, cartilage restoration surgery, and patellofemoral replacement.

## Trauma

**Tuesday, March 6  8:00 AM - 10:00 AM**

**113 How to Avoid Failures in Tibial Plafond Fractures**  
*Pierre Guy, MD, Jackson Lee, MD, Saam Morshed, MD*  
**Moderator:** Utku Kandemir, MD  
Tibial plafond fractures are challenging. Multistep, detailed planning of treatment is necessary to achieve the best outcome possible.

**114 Management of Pelvic Fractures**  
**Moderator:** Michael D. Stover, MD  
Current standards of pelvic ring injury evaluation, acute management, decision making, surgical techniques, and complication avoidance are presented in depth. *No handouts available.*

**Tuesday, March 6  10:30 AM - 12:30 PM**

**B The Treatment of Hip Fractures in 2018: Can We Reach a Consensus?**  
*Mohit Bhandari, MD, Michael Blankstein, MD, Robert V. O’Toole, MD, David Sanders, MD, Gerard Slobogean, MD*  
**Moderator:** Emil H. Schemitsch, MD  
A primary goal of the symposium is to achieve consensus opinions on many current issues and controversies regarding the treatment of these common injuries. Accomplishing this will have important implications given the impact on scarce healthcare resources.

**132 Tips and Tricks for Common, Yet Difficult Osteopenic Fractures in the Community**  
*George J. Haidukewych, MD, Mark A. Mighell, MD, Richard S. Yoon, MD*  
**Moderator:** Frank Liporace, MD  
This instructional course provides decision-making pearls and tricks for both fixation and arthroplasty for osteopenic proximal humerus, distal humerus, and displaced femoral neck fractures.

**Tuesday, March 6  1:30 PM - 3:30 PM**

**152 How Can I Get this Bone to Heal?**  
*Randal E. Marcus, MD, John K. Sontich, MD*  
**Moderator:** Charalampos Zalavras, MD  
This course provides a comprehensive overview of early interventions aiming to prevent nonunions, as well as evaluation and management of established nonunions. This enables participants to optimize care of fracture patients and improve outcomes.

**153 It’s All About the Timing...When Do I Take This to the Operating Room?**  
*Erik Kubíak, MD, Sean E. Nork, MD, Philip R. Wolinsky, MD*  
**Moderator:** Nirmal C. Tejwani, MD  
This course discusses the timing and outcomes of operative intervention of open fractures, talus fractures, and femoral neck fractures in young and compartment syndromes.

**Tuesday, March 6  4:00 PM - 6:00 PM**

**171 Proper Usage and Understanding of Antibiotics in the Treatment of Musculoskeletal Infections**  
*Douglas R. Osmon, MD, Javad Parvizi, MD, FRCS*  
**Moderator:** David W. Lowenberg, MD  
Knowledge of how microbes gain a foothold and then evade common modes of treatment in the host are covered. The proper usage of antibiotics as well as their role and limitations in treatment of these infections are defined, including implant-related factors in infection.

**172 The Not-So-Simple Ankle Fracture: Avoiding Problems and Pitfalls to Improve Patient Outcome**  
**Moderator:** Julius A. Bishop, MD  
Focusing on four themes, challenges to care for the rotational ankle fracture are highlighted and tips for management are provided.

**Wednesday, March 7  8:00 AM - 10:00 AM**

**214 Complex Proximal Tibia Fractures: Work Up, Surgical Approaches, and Definitive Treatment Options**  
*Michael T. Archdeacon, MD, Edward J. Harvey, MD, Marcus F. Sciadini, MD*  
**Moderator:** Nirmal C. Tejwani, MD  
Course presenters discuss intra- and extraarticular proximal tibia fracture evaluation and management, including soft tissue injuries, surgical approaches, and reduction and fixation strategies.

**215 Distal Humerus Fractures: Surgical Techniques**  
*Animesh Agarwal, MD, Michael D. McKee, MD, Milan K. Sen, MD*  
**Moderator:** Utku Kandemir, MD  
Knowledge of advantages and disadvantages of each surgical approach for distal humerus fractures, reduction techniques, and ulnar nerve management is of paramount importance in deciding the approach in each individual case.

EDUCATIONAL SESSIONS

388 Fractures of the Proximal Femur: A Case-Based Approach
Lisa K. Cannada, MD, Roy Davidovitch, MD, Jonathan M. Gross, MD, Joseph R. Hsu, MD, Kyle J. Jeray, MD, Madhav A. Karunakar, MD, Sanjit R. Konda, MD, Philipp Leucht, MD, Saqib Rehman, MD, Philip R. Wolinsky, MD
Moderator: Kenneth A. Egol, MD
This course focuses on the management of femoral neck and periprosthetic fracture. Attention is given to surgical tips and tricks.

Friday, March 9 8:00 AM - 10:00 AM

416 Extreme Nailing: Tips and Tricks from the Experts
Frank A. Liporace, MD, Saqib Rehman, MD, J. Tracy Watson, MD
Moderator: Daniel S. Horwitz, MD
This course focuses on fractures commonly encountered by the practicing surgeon that can be challenging to nail. Subtrochanteric, distal femur, proximal tibia, and distal tibia are covered in a “how I do it” video presentation followed by a key points slide presentation and discussion. Videos are intense.

417 Young Femoral Neck Fractures – Why are They So Scary?
Timothy S. Achor, MD, Christopher G. Finkemeier, MD, Clifford B. Jones, MD
Moderator: Brett D Crist, MD
A young femoral neck fracture is a case that causes significant stress for orthopaedic surgeons. When should they be fixed; how can I get it anatomically reduced and avoid complications? This instructional course lecture reviews it all through didactics, debate, and case discussion.

Friday, March 9 11:00 AM - 12:30 PM

430 How to Raise Basic Free Flaps Safely for Orthopaedic Trauma
Tokio Kasai, MD, Milan Stevanovic, MD
Moderator: John T. Capo, MD
This course focuses on how to raise and transplant the conventional and perforator flaps safely for limb reconstruction. Presenters describe the crucial surgical anatomy and microsurgical suture techniques for flap surgery. The safe raising and handling of flaps also is described through surgical technique videos. Pearls and pitfalls are explained clearly.

431 Surgical Exposure Trends and Controversies in Extremity Fracture Care
John G. Anderson, MD, Gregory J. Della Rocca, MD, Michael J. Gardner, MD, Stephen Kottmeier, MD, Erik Kubíak, MD
Moderator: Clifford B. Jones, MD, FACS
Half of this course is dedicated to upper extremity, and the second half to lower extremity contemporary plating techniques. Emphasis is directed to surgical access routes, trends, and controversies, as well as anatomic dissection, patient positioning, and preoperative planning. Indication, implant insertion, outcomes, and complications are deemphasized or omitted. Questions and answers and well-edited video dissections complete the course. No handouts are available.

Friday, March 9 1:30 PM - 3:30 PM

450 Current Plating Techniques and Definitive Treatment Options for Fractures of the Tibial Plafond and Treatment of the Late and Failed Pilon
Animesh Agarwal, MD, Samir Mehta, MD
Moderator: Gilbert R. Ortega, MD, MPH
This course discusses staged treatment of tibial pilon fractures with an emphasis on modern plating techniques including standard and alternative operative approaches. It includes discussion on open treatment in combination with definitive external fixation and salvage of the late presentation and treatment failures.

451 Acetabular Fractures: A Problem-Oriented Approach
Pierre Guy, MD, Henry C. Sagi, MD, Stephen H. Sims, MD
Moderator: Mark C. Reilly, MD
Using a case-based approach, the participant comes away with an improved understanding of the operative management of acetabular fractures occurring in combination with complicating factors. No handouts are available.

Friday, March 9 4:00 PM - 6:00 PM

Nursing & Allied Health Courses
AAOS, the National Association of Orthopaedic Nurses (NAON), and the National Association of Orthopaedic Technologists (NAOT) have collaborated to develop the Nursing and Allied Health Program. The program consists of six courses for registered and licensed practical nurses, physician assistants, orthopaedic technologists, and physical and occupational therapists. In addition, applications have been made to the orthopaedic technologists, physician assistants, and the American Nursing Credentialing Center to provide multiple types of contact hours for these courses.

To attend any of the Nursing and Allied Health courses, you need to register for the AAOS Annual Meeting and purchase a ticket for each course. Please see pages 58-60 for registration and course fees. Please note registration is limited. No one is admitted without a name badge and ticket.

CAST1: Casting and Splinting Skills Workshop – FUNDAMENTALS
Tuesday, March 6, 8:15 AM - 5:45 PM (break 12:30 - 1:30 PM)

CAST2: Casting and Splinting – Advanced Immobilization Techniques
Wednesday, March 7, 8:15 AM - 5:45 PM (break 12:30 - 1:30 PM)

NUR1: Innovations and Accomplishment in Total Joint Arthroplasty, Shoulder Reconstruction, and Foot and Ankle Specialty
Thursday, March 8, 7:30 AM - 12:00 PM

NUR2: Driving the Future of Orthopaedic Trauma, Nurse Navigation, and Considerations/Outcomes related to Models of Care
Thursday, March 8, 1:30 - 6:00 PM

NUR3: Best Practices in the Pediatric Patient Population; Orthopaedic Radiographic Interpretation for the NP/APN
Friday, March 9, 7:30 AM - 12:00 PM

NUR4: What’s Hot! Managing Outcomes for Patients through Proactive Prevention Strategies, Innovative Models and Performance Improvement
Friday, March 9, 1:30 - 6:00 PM

Media Training
From Insights to Sound bites: Your Orthopaedic Expertise and the News Media #701
Friday, March 9, 8:00 AM – 12:00 PM

Feel more confident and learn to make the most of every media encounter and public presentation. Participants will gain an understanding of how the news media works. In this fast-paced, interactive session, you’ll learn the keys to a successful interview and the ways to best present your most important information in any discussion, including how to:

• Create clear and unambiguous key messages and sound bites
• Take control of an interview
• Bridge from an irrelevant question to your key message
• Speak clearly and use language friendly to your audience
• Use appropriate gestures and body language

This session is limited to 15 attendees to ensure a highly interactive, engaging experience. The cost to attend media training is $25 and is open to all active AAOS Fellows, Candidate Members and Emeritus Fellows.

Resident Focused
Practice Management for Residents and Fellows-in-Training #191
Tuesday, March 6, 12:30 – 5:00 PM, See page 34.

Resident Assembly Open Forum
Wednesday, March 7, 10:00 – 11:00 AM

All residents are invited to attend an open forum to discuss proposed advisory opinions to be brought before the Resident Assembly the following day. An advisory opinion is defined as an initiative/opportunity for residents or a stance taken on resident issues. At the open forum, residents will have the chance to present advisory opinions they have sponsored and discuss advisory opinions proposed by other residents and educational programs. This is an exciting opportunity for residents to make a difference in the AAOS.

Forum for Young Orthopaedic Surgeons with the American Board of Orthopaedic Surgery
Thursday, March 8, 10:30 AM - 12:30 PM

This free annual forum provides senior residents and new practitioners a unique opportunity to meet informally with David F. Martin, MD, Executive Medical Director of the American Board of Orthopaedic Surgery (ABOS). The executive medical director will provide you with insightful information about Board requirements and procedures. This special program is a “must attend,” as it answers your questions about this important step in your career. If you are looking at ABOS Part 1 or Part 2 of the exam in the near future, you should not miss this forum.

Resident Assembly
Thursday, March 8, 1:30 – 3:30 PM

All residents are invited to attend the AAOS Resident Assembly. The primary purpose of the Resident Assembly is to serve as an advisory body to the AAOS on issues of importance to orthopaedic residents. This is your opportunity to make a contribution to AAOS and toward your own professional advancement. Join a committee or become a delegate at aaos.org/residents, and let your voice be heard!

The Resident Bowl
Thursday, March 8, 4:00 – 6:00 PM

The third annual Resident Bowl is an opportunity for residents to compete on teams in a game-style setting, answering orthopaedic and non-orthopaedic trivia for grand and runner-up prizes. Registration for the Annual Meeting is required for this event, apply to participate by February 1, 2018 at aaos.org/residentbowl.

All residents are encouraged to attend and cheer for their colleagues!
Experience the largest display of orthopaedic surgical and diagnostic solutions

Exhibit Hall Highlights
• See new products & technology from more than 650 companies
• Connect with representatives from every major orthopaedic and device manufacturer
• Compare products and plan purchases for your hospital or practice
• Redeem coupons and enter drawings at AAOS Redemption Centers

Exclusive Education
Ask an Expert
Present your HIPAA compliant case challenges to an orthopaedic expert for diagnosis and recommendation.

Technology Theater
Plan to attend these presentations that showcase current technology, products, and applications.

Exhibit Schedule Morial Convention Center Halls B – H
Wednesday, March 7 ........................................9:00 AM – 5:00 PM
Thursday, March 8 ...........................................9:00 AM – 5:00 PM
Friday, March 9 ...............................................9:00 AM – 4:00 PM

Network with colleagues during complimentary beverage breaks on Wednesday and Thursday at 3:30 – 4:00 PM and Friday at 2:30 – 3:30 PM.

Get the latest details at www.aaos.org/exhibits
Specialty Day is a day set aside for scientific programs presented by organizations that are members of the Board of Specialty Societies. Those organizations include:

- **American Orthopaedic Foot & Ankle Society**
  Morial Convention Center, Great Hall B
  7:00 AM – 4:45 PM

- **American Orthopaedic Society for Sports Medicine/Arthroscopy Association of North America**
  Morial Convention Center, Theater B
  7:10 AM – 3:00 PM

- **American Shoulder and Elbow Surgeons**
  Morial Convention Center, Theater C
  7:25 AM – 5:00 PM

- **American Society for Surgery of the Hand/American Association for Hand Surgery**
  Morial Convention Center, Room 265
  7:30 AM – 4:50 PM

- **Federation of Spine Associations**
  - American Spinal Injury Association
  - Cervical Spine Research Society
  - North American Spine Society
  - Scoliosis Research Society
  Morial Convention Center, Room 271
  8:00 AM – 4:52 PM

- **Limb Lengthening and Reconstruction Society**
  Morial Convention Center, Room 206
  8:00 AM – 2:30 PM
  Morial Convention Center, Great Hall B
  2:30 PM - 4:45 PM

- **Musculoskeletal Infection Society**
  Morial Convention Center, Room 207
  8:00 AM – 12:45 PM
  Morial Convention Center, Theatre C
  4:00 PM - 5:00 PM

- **Musculoskeletal Tumor Society**
  Morial Convention Center, Room 222
  8:00 AM – 3:50 PM

- **Orthopaedic Trauma Association**
  Morial Convention Center, Room 245
  7:25 AM – 4:45 PM

- **The Hip Society/American Association of Hip and Knee Surgeons**
  Morial Convention Center, La Nouvelle Ballroom B
  7:55 AM – 5:05 PM

- **The Knee Society/American Association of Hip and Knee Surgeons**
  Morial Convention Center, La Nouvelle Ballroom C
  7:55 AM – 5:05 PM

Each society has its own educational program within the Specialty Day program. The Specialty Day Preliminary Program can be found in your Preliminary Program packet or on the Annual Meeting website. Individual programs note times, titles, and faculty. All programs offer CME as well. Advance registration will be accepted with your AAOS registration until January 24, 2018.

**AAOS Salutes**

**The Hip Society**

**50th Anniversary**
The ORS invites AAOS registrants to attend the ORS Annual Meeting on Sunday, March 11 at no charge.

- Paper Presentations - 9:45 - 10:45 AM, 3:30 – 4:30 PM, 5:30 – 6:30 PM
- 2018 Kappa Delta, OREF Clinical Research and CORR© ORS Richard A. Brand Award paper presentations – 2:15 – 3:15 PM
- ORS Clinical Research Forum: Generating Reliable Clinical Information - Barriers and Biases in Cohort Studies and Randomized Controlled Trials – 8:00 AM – 12:00 PM
- ORS Keynote Speaker: John Ioannidis, Stanford University – 1:00 - 2:00 PM
- ORS Orthopaedic Implants Section Meetings – 8:15 - 10:45 AM

Scientific Workshops – 8:00 – 9:30 AM
- Regenerative Rehabilitation: The Role of Mechanotherapies used to Optimize Regenerative Medicine Outcomes Organizer: Christopher Evans, PhD, Mayo Clinic
- Osseointegrated Prosthetic Limbs: Recent Developments and Future Directions Organizers: Mark Ehrensberger, PhD, University of Buffalo and Sujee Jeyapalina, PhD, University of Utah

- Normal and Neoplastic Osteogenesis Signaling: Targeted Therapeutic Opportunities
  Organized by the Musculoskeletal Tumor Society (MSTS) and ORS
  Organizers: Francis Y. Lee, MD, PhD, Yale University and Michelle Ghert, MD, McMaster University

Professional Advancement Sessions
- Social Media - Engagement and Outreach Tools for New Investigators – 8:00 – 9:30 AM

How to Register:
Although there is no fee to attend the ORS Annual Meeting on Sunday, a sticker must be placed on your badge to access the meeting. A sticker can be obtained at ORS registration located at the Hyatt Regency New Orleans, 7:00 AM – 6:00 PM, Friday – Sunday.

See you in New Orleans!

Visit the AAOS Resource Center

AAOS Resource Center
Academy Hall B
From print and digital education resources to practice tools and membership benefits, the AAOS is your source for lifelong learning to meet your career and practice needs. Visit the AAOS Resource Center to consult with experienced staff who answer your questions, help you navigate Academy apps, and walk you through the wide selection of publications, courses, eBooks, digital content, self-assessment exams, and online learning programs created for you. Find practical patient education resources and explore the newly designed orthoinfo.org site.

Discover new interactive programs and CME activities on the Academy’s new online learning platform. Download and try the Academy’s suite of content and video apps, including My Academy, and AAOS Access featuring Orthopaedic Video Theater, eBooks, and more.

Plan ahead to try out new resources to keep you current in your field. Find in-person support and solid answers to your AAOS membership benefits questions, continually changing MOC needs, and educational pursuits.

Various programs from this meeting are available for purchase at the Resource Center.

AAOS Exhibit Hall Resource Center
Hall F, Booth #4441
For your convenience when you are in the Exhibit Hall, visit the AAOS Exhibit Hall Resource Center located in Publishers’ Row. Try your hand at surgical simulation on systems from AAOS partners, and find your Board of Councilor Representative in the BOC kiosk at this location.

AAOS Welcomes Italy as Guest Nation

Help us welcome Italy as the Guest Nation for the AAOS 2018 Annual Meeting. Look for special events and activities including a co-branded symposium (Orthopaedic Surgery of Pelvis/Controversies in Diagnostics and Treatment of Infections After THA: Determining the Optimal Moment for Re-implantation), special poster tours, 10 featured posters from Italy, and additional education sessions featuring Italian experts. Inaugurated in 2005, the AAOS Guest Nation program was established to foster greater recognition and awareness of the contributions made to the practice of orthopaedics from the many nations of the world, and to further enhance the robust international flavor and excitement of the AAOS Annual Meeting.

AAOS “Communities in Motion”

Tuesday, March 6

This year, the Academy hosts “Communities in Motion”—a family fitness event, an extension of the A Nation in Motion® campaign—to show people of all ages how they can have fun and exercise together to prevent injuries and build strong bones for life. The community event features a series of interactive challenge stations featuring orthopaedic surgeons highlighting specific bone and joint areas, and the importance of building strength, greater flexibility, and balance. Experts also demonstrate exercises that participants can do on site as well as adapt for at-home sessions.

To sponsor the event or learn more about how you can get involved with this exciting program, visit ANationInMotion.org/Communities, or contact Kayee Ip by phone at (847)384-4035 or email ip@aaos.org.

My Academy App

The Annual Meeting My Academy App is available free from the App Store or Google Play in January. View, search, and schedule all educational opportunities, Exhibitor information, Social Program, Committee and Affiliate Meetings, and Special Events. You may even add personal events to your schedule to help you stay organized and make the most of your time at the Annual Meeting. A mapping program for meeting room location and exhibiting companies within the Morial Convention Center also is included. You also may search for attendees and use the messaging feature within the app to help you connect or reconnect with colleagues. Need some assistance? Visit the help desk located in the Resource Center.

AAOS Career Center

Academy Hall B

The Career Center at the Annual Meeting offers an opportunity for hiring organizations and orthopaedic surgeons to meet in person regarding open positions. This year we are offering more resources for both the job seeker and the hiring organization.

Tuesday - Friday ........................................7:00 AM - 6:00 PM
Saturday ....................................................7:00 AM - 3:00 PM

Employers

Hospital staff, practice administrators, and medical staff personnel are permitted to access the Career Center. Professional recruiters are not allowed to participate in this service.

- Hiring employers must have an active listing on the website.
- Employers MUST register as an Annual Meeting attendee to gain entry to the Career Center. Advanced registration fee is $150 per person. On-site registration fee is $250 per person.
- Due to space limitations, we ask that you limit attendance to two representatives per company.

Job Seekers

The Career Center has been established for the benefit of Academy members. Members with an active job seeker listing may participate in this service. Create your listing in advance via your online profile or stop by the Career Center to create your listing on site.

On-site Bulletin Boards

An active listing on the website is required to post your ad on the bulletin boards. Only orthopaedic surgery opportunities may be posted. Posted items should NOT exceed 8.5” x 11”. Due to space limitations, only one ad per practice is allowed.

Interview Booths

The Career Center may be used to conduct on-site interviews. Private interview space may be reserved on site at the Career Center. Booths are not intended to be used as exhibit space nor may they be occupied by a candidate or employer for an extended period of time. For further information on the Career Center, contact us at (800)346-2267, ext. 4259 or email careercenter@aaos.org.

www.aaos.org/careercenter
Annual Meeting Attendee Policies

Attendee Conduct
• Selling and/or marketing activities are reserved exclusively for registered exhibitors and can only be conducted from an exhibit booth space.
• Annual Meeting attendees that plan to sell and/or market products at the Annual Meeting can only do so from an exhibit booth in the Industry Exhibit Hall. To secure a paid exhibit booth space, visit www.aaos.org/exhibits for information.
• At the sole discretion of AAOS, attendees found in violation of this requirement may be escorted from the meeting and have all meeting privileges revoked without refund of fees paid.

Event Cancellation
Due to circumstances beyond our control, the American Academy of Orthopaedic Surgeons may elect to cancel the Annual Meeting. These circumstances may include but are not limited to disaster, severe weather, civil commotion or government laws or regulations. In the event of such cancellation, all Annual Meeting registrants will be notified by email at the address noted in the AAOS database; and registration fees will be refunded in full. Other costs incurred by the registrant, such as airline or hotel penalties, are the responsibility of the registrant.

Image Capture
Attendees grant AAOS (and its employees and agents) permission to capture, retain, and utilize the attendees’ image, likeness, voice, and actions, whether captured live or recorded and in any format, during the Annual Meeting, for display, exhibition, publication, or reproduction in any medium or context for any purpose, including, but not limited to, commercial or promotional purposes, without further notice, authorization, or compensation.

Non-Smoking Policy
In Louisiana, it is illegal to smoke indoors and in spaces open to the public.

Privacy Policy – Use of Personal Information
Annual Meeting registration lists, including the medical registrant’s name, postal mailing address, and phone number, are available for sale to exhibitors in advance of and after the Annual Meeting. In addition, certain personal information, including the medical registrant’s name, postal mailing address, phone number, hospital affiliation, and practice focus, is available at the Annual Meeting to exhibitors through a “lead retrieval system” mechanism. For additional information, please refer to the entire AAOS Privacy Policy by visiting www.aaos.org/privacy.

Private Meeting
The AAOS 2018 Annual Meeting is a private meeting. The AAOS reserves the right to control space and ask people to leave the meeting who are not qualified to attend or who cause disruptions, at AAOS’ sole discretion.

Refund Policy
All requests for refunds (registration, courses, track packages, and/or Specialty Day) must be received in the Academy office on or before January 26, 2018. No refunds are issued after this date.

Registration of Children Restricted
The following guidelines have been approved for the Annual Meeting. Only children 16 or over will be admitted to the educational programs, including industry exhibits.
Children and individuals of any age, providing they are not disruptive to the meeting, are welcome in the following activities:
• Posters
• Scientific Exhibits
Children under the age of 16 are not permitted in the following areas of the meeting:
• Industry Exhibits
• Educational Sessions (paper presentations, symposia, instructional courses)
• Business Meetings
• Your Academy 2018
• Presidential Guest Speaker, David Gergen, Senior Political Analyst, CNN
The Academy does provide a Social Program which is open to all spouse, family members and guests accompanying members and attendees to the meeting. Tours and events are offered daily during the meeting.

Reproduction Policy
The Academy reserves any and all of its rights to materials presented at the Annual Meeting, including Posters and Scientific Exhibits. Reproductions of any kind, by any person or entity, without prior written permission from the Academy, are strictly prohibited. Prohibited reproductions include, but are not limited to, audiotapes, videotape, and/or still photography. Persons violating this policy may have their badge confiscated and be escorted from the meeting. No unapproved surveys, handouts, or literature may be distributed at the meeting.

Social Program
New Orleans is a fascinating city and home to a truly unique melting pot of culture, architecture, food and music – it’s one of the most culturally and historically-rich destinations in America. No matter your interest -- Swamp and Airboat adventures, the City, the Cemetary, Historic Plantations, WWII, Cooking, Arts or Antiques -- the Social Program has something for you…
To register for AAOS tours and activities, visit www.aaos.org/tours

REGISTRATION

Get Ready to Register
What do I need, to complete the registration process?
If you are a Member or a Returning Non-Member, you will need your username and password to register. If you have forgotten either, please follow the prompts on the login page.
If you are a First Time Non-Member, you will need to request approval to attend the meeting and login to our system.

Online Registration
How do I register for the Annual Meeting?
The quickest and easiest way to register is online!
Head over to our 2018 Attendee Registration page at:

www.aaos.org/register

When your registration is complete you will receive an email confirmation. You can continue to add courses to your registration account through the meeting.

For alternative registration options contact registration at
(844)529-3707 – U.S. and Canada
(508)743-8504 – International
Email AAOSMeeting@xpressreg.net

Badge & Ticket Information
When will I receive my badge and tickets?

U.S. and Canadian Registrants: You will be mailed your Check-in Ticket, Official Annual Meeting Badge, and ICL tickets if you have registered and paid in full by the advance registration deadline. PLEASE NOTE: This is your Official Annual Meeting Badge and paid tickets; you will need to bring your badge to check-in at the Meeting, as well as have your tickets for entry into all paid sessions.

International Attendees: Your badges are not mailed, however two weeks prior to the meeting you will receive a secondary email confirmation that you should bring to check-in at the meeting.

At the Meeting
I’m at the meeting - what do I do first?
You must stop at one of the Check-in counters (with all of your registration materials) to receive CME credit. Pick up a badge holder/lanyard, add more courses, and obtain any further information you need for the meeting.

Check-in Locations:
Morial Convention Center – Academy Hall B, Lobbies A, E or H
Hotel check-in is available on Monday & Tuesday, March 5-6 at:
• Hilton New Orleans Riverside
• New Orleans Marriott

On-site Registration: Member and Non-Member on-site registration is available at the Morial Convention Center, Academy Hall B. Proof of your credentials will be required. For registration hours and location, please see our What, When, and Where page at the front of this program.

REGISTRATION DEADLINE: January 24, 2018
After this date, checks or payments received for advance registration will not be processed and returned to sender. The registration process will need to be completed and the late registration fees will apply.

Registration Changes & Cancellations
Changes to your registration can be made until January 26, 2018. After this date, all course ticket exchanges take place on-site and are charged the on-site course fee.

To cancel your entire registration, selected courses or a package, a written request for a refund must be received in the Academy office by January 26, 2018. No refunds are issued after this date. If you have received your badge and ticket packet, this packet must be returned to the Academy offices before a refund is processed. There are no refunds available at the meeting.

You may submit your cancel request via email to:
AAOSMeeting@xpressreg.net - or - by fax at (508)743-3600

Event Cancellation
Due to circumstances beyond our control, the American Academy of Orthopaedic Surgeons may elect to cancel the Annual Meeting. These circumstances may include but are not limited to disaster, severe weather, civil commotion, or government laws or regulations. In the event of such cancellation, all Annual Meeting registrants will be notified by email at the address noted in the AAOS database, and registration fees will be refunded in full. Other costs incurred by the registrant, such as airline or hotel penalties, are the responsibility of the registrant.

Family Badges
How may a family member attend the meeting?
Family badges are available to spouses or immediate family during on-site registration hours. In order to receive a family badge, you must be accompanied by a registered attendee.

There is a limit of two family badges per registered attendee.
Family Badge Attendees 16 and older have access to the following:
Academy Hall (Posters & Scientific Exhibits)
Symposia and Paper Presentations
Exhibit Hall
Your Academy 2018 / Presidential Guest Speaker, David Gergen, Senior Political Analyst, CNN

Note: Children under the age of 16 are welcome in Academy Hall (Posters & Scientific Exhibits).
Co-workers, or those associated within the orthopaedic industry do not qualify for a Family Badge. These individuals must register in the appropriate professional or exhibitor category.
The AAOS Annual Meeting is a private meeting. Your attendance must be approved. You will be required to provide proof of your credentials and submit designated fees at time of registration. There are no provisions for a daily pass or partial registration. The Annual Meeting is your best opportunity to share experiences and advance your practice and profession. In order to support our flagship education, a fee will be collected from members at the time of registration, $100 in advance and $250 on-site.

**Industry Non-Exhibitor**
This category requires approval by AAOS and only provides access to the Exhibits. It includes Equipment Distributors/Manufacturers, Financial Analysts, Health Care Consultants, Investment Broker/Bankers, and potential Exhibitors. There are no provisions for daily or partial registration during the AAOS Annual Meeting. For more information please go to [www.aaos.org/exhibitors](http://www.aaos.org/exhibitors).

**Exhibitor**
Individuals employed by an exhibiting company will be registered through their company. The exhibitor’s badge allows admittance to the exhibit halls, and on a space available basis to the scientific exhibits, posters, general sessions, symposia, and paper presentations. If available, instructional course tickets may be purchased on-site on the day of the course.

### Members

**AAOS Member:** Members in good standing who are AAOS Fellows, Candidate Members, Resident Members, Associate Members, or International Members.

**Annual Meeting Official Speaker:** These individuals have been selected and notified by the Academy as an official speaker for the current Annual Meeting.

**Annual Meeting Official Co-Author:** These individuals have been selected and notified by the Academy as an official co-author for the current Annual Meeting.

**Note:** Members must be in good standing to register with the appropriate Member fees.

### Non-Members

**U.S. Physician Non-Member:** Non-Member Physicians practicing in the U.S.

**International Medical Attendee Non-Member:** This category includes all International Non-Member Orthopaedic Surgeons, Allied Health and other medical attendees.

**U.S. Fellow-in-training or U.S. Resident-in-training:** Academy approval is required. Only Orthopaedic Fellowships or Residency Programs qualify for this category. A letter from your Chief of Service must be received by January 24, 2018 to receive the Advance Registration rate.

**U.S. Allied Health:** Academy approval is required. This category is limited to medical professionals directly employed by a hospital, healthcare network, university or freestanding facility administering to patients. (i.e.: RN, OPA, OTC, ATC, PT)

**U.S. Medical / Office Professional:** Academy approval is required. This category is limited to office staff and medical staff.

**U.S. Approved Participant:** Academy approval is required. This category is limited to Non-Members/Non-Physicians participating in the Career Center who have a current listing.
To attend an Instructional Course, you must be registered for the Annual Meeting and purchase a course ticket. The following fees apply:

- SPORTS2 - Sports Medicine: $200 (Physician) $100 (Residents)
- TRA2 - Trauma: $150 (Physician) $75 (Residents)

**Annual Meeting Objectives**

**Global Objectives**

- Develop and refine a perspective on the broad range of orthopaedic knowledge, care and surgical practice.
- Expand and integrate an understanding of the scientific and clinical tenets of orthopaedic surgery to better prevent and treat musculoskeletal disease.
- Develop an understanding of economic and practice management challenges that can lead to strategies that protect continued access to care for patients and viability of the profession.
- Provide a forum to strengthen professional relationships and develop networks that lead to better patient care, individual surgeon career satisfaction, and a more robust profession as a whole.

**Instructional Objectives**

- To facilitate a personalized educational experience through a comprehensive offering of instructional courses, symposia, and scientific presentations.
- Support a forum for discussion of current issues in orthopaedics including patient safety, advocacy, practice management, technology, and culturally competent care.

- Offer complementing formats to facilitate career-long education that meets the expectations and requirements of patients, colleagues and Maintenance of Certification.
- To provide a forum for the presentation of basic and clinical research with current as well as future potential applications in the management of patients with musculoskeletal disease or injury.

**Learner Objectives**

- Synthesize a basis for the practice of delivering evidence based, cost effective orthopaedic care, both patient centered and population based.
- Integrate current basic science, translational research, and state-of-the art procedures and technology into clinical practice.
- Become more informed and involved in advocacy issues related to orthopaedics.
- To provide a forum for resident education on current clinical practice, relevant basic science, practice management, and advocacy issues in preparation for careers as competent and ethical orthopaedic surgeons.
